

2026 | Formulary (List of Covered Drugs) Formulario (Lista de Medicinas Cubiertas)

Notice:

The information in this document is current as of April 1, 2026.

The formulary is subject to change and all previous versions of the formulary are no longer in effect. An electronic version of the formulary can be found at **connecticare.com**.

Information about prescription drug cost sharing amounts can be found on our Benefits at a Glance brochure or by entering your prescription and pharmacy information into the Search Drugs tool.

Aviso:

La información de este documento está vigente a partir del 1 de abril de 2026.

El formulario está sujeto a cambio y todas las versiones anteriores del mismo ya no se encuentran en vigor. Puede encontrar una versión electrónica del formulario en **connecticare.com**.

Puede encontrar información sobre los montos de distribución de costos para medicamentos recetados en nuestro folleto Beneficios de un vistazo o ingresando su información de receta y farmacia en la herramienta Búsqueda de Medicinas.

Drug Formulary and Guide

ConnectiCare Drug Formulary (List of Drugs)

Your plan has a list of drugs that are covered. The list is called the Drug Formulary. The formulary changes from plan year to plan year. Smaller updates are also made every 3 months. The drugs on the list are chosen by a group of doctors and pharmacists from your insurer and the medical community. The group meets every three months to talk about the drugs that are on the formulary. They review new drugs and changes in health care. They try to find the most effective drugs for different conditions. Changes are made to the Drug Formulary for different reasons. Reasons may include:

- Changes in medical practice
- New drugs become available
- New generics are available and take the place of previously covered branded drugs
- New state or federal drug coverage requirements
- A drug is no longer available or has a new safety issue

ConnectiCare will provide at least 90 days' notice ahead of these types of formulary updates:

- A prescription drug is approved by the US Federal Food and Drug Administration (FDA) for use without a prescription.
- Moving the drug to a higher drug list tier, moving the drug from preferred to non-preferred status, or other changes we make to the drug list that result in higher member cost-sharing for the formulary drug due to a generic product for that drug becoming available and being added to the formulary at a lower cost than the brand name product.

If the drug has been found to be unsafe by the US Federal Food and Drug Administration (FDA) or is taken off the market for other reasons, ConnectiCare will provide at least 90 days' notice of the removal of this drug from the formulary. Your doctor may provide notice, in writing, to ConnectiCare that the prescription drug remains medically necessary for you despite the FDA findings, and you will be able to continue using this medication. Your plan's most current drug list is on our website ConnectiCare.com. A notice of all changes is included in the drug list document with each update.

Does the drug list include injectable drugs that a Provider treats me with in a clinic or other location?

In general, drugs on the drug list are drugs your provider prescribes for you to get from a pharmacy and give to yourself. Most injectable drugs you need help from a provider to use are covered under the medical benefit instead of the prescription drug ("pharmacy") benefit. Your provider has instructions from us on how to get you approved for drugs they buy and help give to you. Some injectable drugs can be approved to get from a pharmacy using your prescription drug benefit.

I have questions about how my plan covers drugs.

This guide contains many details for common questions:

- Can my prescription be filled at a retail pharmacy?
- Where can I see the cost sharing dollar amount for my prescription?
- What is the process for requesting a drug that has a Prior Authorization requirement?
- How can I request an exception for a drug that is not on the formulary or has step therapy requirements?
- Is my drug covered under the prescription drug benefit or the medical benefit?

You may also call us and ask specific coverage questions about a drug. Call toll-free **1 (800) 251-7722**, Monday through Friday, **8:00 a.m. through 6:00 p.m.** If you are deaf or hard of hearing, dial 711 for the Telecommunications Service. You can also ask us to mail you a copy of the drug list.

The member handbook and the plan agreement also contain important coverage information. Please see the plan agreement (“Evidence of Coverage”) for information on contraceptive coverage, benefit exclusions, hospice services, and more.

If a drug is listed on the formulary, will I be prescribed that drug?

A drug being listed on the formulary does not guarantee that your doctor will prescribe it for you. This guide lets you and your doctor know which prescription drugs are covered by your plan. Drugs that are not on this list may not be covered by your plan and may cost you more. You may ask for nonformulary drugs to be covered. Requests for nonformulary drugs will be considered for a medically accepted use when formulary options cannot be used and/or other coverage requirements are met. Details are included in this guide.

Definitions

“Brand name drug” is a drug that is marketed under a proprietary, trademark protected name. The brand name drug shall be listed in all CAPITAL letters.

“Coinsurance” is a percentage of the cost of a covered health care benefit that an enrollee pays after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.

“Copayment” is a fixed dollar amount that an enrollee pays for a covered health care benefit after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.

“Deductible” is the amount an enrollee pays for covered health care benefits before the enrollee’s health plan begins payment for all or part of the cost of the health care benefit under the terms of the policy.

“Dosage form” is the physical form in which a prescription drug is produced and dispensed, such as a tablet, a capsule, or an injectable.

“Drug Tier” is a group of prescription drugs that corresponds to a specified cost sharing tier in the health plan’s prescription drug coverage. The tier in which a prescription drug is placed determines the enrollee’s portion of the cost for the drug.

“Enrollee” is a person enrolled in a health plan who is entitled to receive services from the plan. All references to enrollees in this this formulary template shall also include subscriber as defined in this section below.

“Exception request” is a request for coverage of a prescription drug. If an enrollee, his or her designee or prescribing health care provider submits an exception request for coverage of a prescription drug, the health plan must cover the prescription drug when the drug is determined to be medically necessary to treat the enrollee’s condition.

“Exigent circumstances” are when an enrollee is suffering from a health condition that may seriously jeopardize the enrollee’s life, health, or ability to regain maximum function or when an enrollee is undergoing a current course of treatment using a nonformulary drug.

“Formulary” is the complete list of drugs preferred for use and eligible for coverage under a health plan product, and includes all drugs covered under the outpatient prescription drug benefit of the health plan product. Formulary is also known as a prescription drug list.

“Generic drug” is the same drug as its brand name equivalent in dosage, safety, strength, how it is taken, quality, performance, and intended use. A generic drug is listed in italicized and bold lowercase letters.

“Nonformulary drug” is a prescription drug that is not listed on the health plan’s formulary.

“Out-of-pocket costs” are copayments, coinsurance, and the applicable deductible, plus all costs for health care services that are not covered by the health plan.

“Prescribing provider” is a health care provider authorized to write a prescription to treat a medical condition for a health plan enrollee.

“Prescription” is an oral, written, or electronic order by a prescribing provider for a specific enrollee that contains the name of the prescription drug, the quantity of the prescribed drug, the date of issue, the name and contact information of the prescribing provider, the signature of the prescribing provider if the prescription is in writing, and if requested by the enrollee, the medical condition or purpose for which the drug is being prescribed.

“Prescription drug” is a drug that is prescribed by the enrollee’s prescribing provider and requires a prescription under applicable law.

“Prior Authorization” is a health plan’s requirement that the enrollee or the enrollee’s prescribing provider obtain the health plan’s authorization for a prescription drug before the health plan will cover the drug. The health plan shall grant a prior authorization when it is medically necessary for the enrollee to obtain the drug.

“Step therapy” is a process specifying the sequence in which different prescription drugs for a given medical condition and medically appropriate for a particular patient are prescribed. The health plan may require the enrollee to try one or more drugs to treat the enrollee’s medical condition before the health plan will cover a particular drug for the condition pursuant to a step therapy request. If the enrollee’s prescribing provider submits a request for step therapy exception, the health plans shall make exceptions to step therapy when the criteria is met.

“Subscriber” means the person who is responsible for payment to a plan or whose employment or other status, except for family dependency, is the basis for eligibility for membership in the plan.

Using the Drug Formulary and Guide

How do I locate a drug that is on the drug list?

The list of drugs is organized alphabetically by therapeutic category and class using the American Hospital Formulary Service (AHFS) classification. Within category and class, drug names are also organized in alphabetical order. If you do not know the category or class for the drug you are looking for, there are two ways to search for the drug by name.

- If you are using an electronic version of the drug list, you can use the PDF Search Function by pressing Ctrl + F on your computer keyboard. Type the name of the drug you are looking for in the search box.
- If you are using a print version of the drug list, you can search for the name of the drug in the Index at the end of this guide.

Drug entries on the list contain the Drug Name, Drug Tier, and other coverage details for all the drugs and items covered under your plan's prescription drug benefit.

Here are examples of how a drug may be displayed on the drug list (actual coverage may differ from this example).

Drug Name	Drug Tier	Requirements/Limits
COUMADIN TAB 1MG (<i>warfarin sodium</i>)	Tier 2	QL (300 tabs / 30 days); MAIL
<i>warfarin sodium tab 1 mg</i>	Tier 1	QL (300 tabs / 30 days); MAIL
<i>warfarin sodium tab 1 mg</i> (Jantoven)	Tier 1	QL (300 ea / 30 days); MAIL

What drug names are used on the list?

The drug list uses trademarked brand names and non-proprietary or "generic" names to show what form of the drug is covered. There are also trademarked names used by certain generic drugs. The way a drug name is shown on the drug list will tell you if the branded form, the generic form, or the trademarked generic form is what is covered. The example above shows the branded, generic, and trademarked generic forms of the drug "warfarin sodium".

When the branded form of a drug is covered, the drug name will be listed in all CAPITAL letters as its BRAND NAME. The non-proprietary or "generic name" for the branded drug will follow in parentheses in all **italicized and bold lowercase** letters. When the generic form of the drug is covered, it is listed separately by its **generic name(s)** in all **italicized and bold lowercase** letters. A generic drug that is covered as the trademarked generic form will be listed separately by its **generic name** followed by the trademarked name in parentheses. The trademarked generic name will be shown with the first letter of each word capitalized.

If both the brand form and the generic form for a drug are covered on the formulary, they will each be listed as separate drug entries. For example, COUMADIN and **warfarin sodium** are listed separately to show both the brand form and the generic form are covered on the formulary. In this example, a trademarked generic form (Jantoven) is also displayed. Different Drug Tier and Requirements/Limits may apply for a trademarked form versus a generic form of a drug if multiple drug forms are listed as covered on the actual drug list.

What are Drug Tiers and how do they affect my share of the drug's cost?

We put drugs on different levels called tiers based on how well they improve health and how much they cost compared to similar treatments. Your plan has the following tiers. For Tiers 1 through 4, in general the lower the Drug Tier, the lower your share of the cost will be.

Here are more details about which drugs are on which tiers.

Drug Tier	Description
Tier 1	Preferred Generic drugs and low-cost Brand Name drugs; Lowest enrollee cost sharing
Tier 2	Non-Preferred Generic drugs and Preferred Brand Name drugs; Higher cost sharing than Tier 1
Tier 3	Non-Preferred, Brand Name and Generic drugs; Higher cost sharing than lower tier drugs used to treat the same conditions
Tier 4	Specialty Drugs, both Brand Name and Generic; Higher cost sharing than lower tier drugs used to treat the same conditions if available. Most Specialty Drugs covered in your plan will be available through a pharmacy in the Specialty Pharmacy Network. Some Specialty Drugs are only sold by certain pharmacies the drug company has chosen (“Limited Distribution”)
PREV	Preventative drugs, family planning drugs and devices (ie, contraception), and other drugs with \$0 cost sharing
DME	Durable Medical Equipment; Cost sharing follows the medical benefit cost sharing for DME for the non-drug product on the drug list

Following section 38 of Chapter 700c of Connecticut Health Insurance Legislation:

- Your plan covers nationally recognized preventative service drugs and dosage forms (PREV) with \$0 cost sharing when prescribed for you to use in line with those recommendations.
- Your plan covers a variety of drug, device, and over-the-counter products for family planning (ie, contraception) under the prescription drug benefit, with \$0 cost sharing (PREV).
- Your plan covers treatment and testing for diabetes including insulin, glucagon, medically necessary devices and supplies on the DME tier, and other prescription drugs.

When coverage of nonformulary drugs is approved on formulary exception, enrollees pay Tier 3 cost sharing for Non-specialty drugs or Tier 4 cost sharing for Specialty drugs. Please see your plan agreement for more details on cost sharing for formulary exceptions.

Certain types of drugs covered by your plan have cost sharing limits each time you fill them. If your state has specific limits, cost sharing will be the lower of your plan design cost sharing or any limit that applies.

- There are limits on your cost sharing for anticancer drugs taken by mouth.
- There is a \$100 limit on each 30-day supply of diabetes related supplies.
- There is a \$25 limit on each 30-day supply of insulin.
- There is a \$25 limit on each 30-day supply of glucagon.

How do deductible and out-of-pocket maximums work?

Understanding how plan deductible and out-of-pocket maximums work can help you understand why some of your covered drugs and services have higher member pay amounts at the beginning of the year than the rest of the year. Online tools are available in the member portal to help you track your member pay balances.

A deductible is the total out-of-pocket amount members pay for covered benefits before the plan starts paying for those benefits. After the deductible is met, the member pay amount becomes a defined cost sharing rate, either a flat dollar copay amount or a percent coinsurance.

- Your plan design information shows which benefits have a deductible requirement and which do not. The information shows what the cost sharing rate is for a given benefit “after deductible” if deductible applies.
- It is important to know if your plan has a combined deductible shared between all benefits, or if it has separate deductibles for the medical and pharmacy benefits.
- Only out-of-pocket amounts you pay as deductible will be counted towards the deductible. This means amounts you pay in cost sharing for benefits that do not have a deductible requirement are not counted towards the deductible. However, all amounts you pay towards your deductible are also counted towards your out-of-pocket maximums. Drug company patient assistance is not counted as true member out of pocket or deductible unless required by state or federal rules.

An out-of-pocket maximum is a limit on the total member pay amounts you and your covered family members pay for all drugs and services covered by the plan during the plan year. If the totals you pay during the plan year reach the out-of-pocket maximum and stay there, no more member pay will be due for drugs and services covered by the benefit after that point, for the remainder of the plan year or coverage period.

- The out-of-pocket maximum counts the total member pay amounts you have paid for drugs and services covered under the pharmacy and medical benefits.
- There is an individual out-of-pocket maximum for each person covered by your plan.
- There is a family out-of-pocket maximum if two or more family members are covered by the same plan. If the family out-of-pocket maximum is reached, there will be no further member pay due for drugs and services covered by the plan after that point for any of the covered family members.

Some events can affect if your deductible and out-of-pocket maximum balances have reached the limits and stay there.

- If you change plans during the plan year, you may have a different deductible and out-of-pocket maximum.
- Claim activities on both the pharmacy and medical benefit channels can affect your balances.
- Depending on timing, balances may include member pay amounts due that you are about to pay on recent medical and pharmacy claims.
- Drug company patient assistance is not counted as true member out of pocket or deductible unless required by state or federal rules.

Online tools for your balances reflect the total member pay amounts due on all claims that have processed through the benefit to the present time. Be mindful of drugs ready at the pharmacy and any member pay amounts due on them when reviewing your balances.

Deductible and out-of-pocket maximums apply to the coverage period in the plan year you received covered drugs and services that had member pay amounts due. The balances paid towards deductible and out-of-pocket maximums start over each new plan year and coverage period. Insurance premiums are not counted as out of pocket for the purposes of deductible and out-of-pocket maximum balances. You must continue to pay the insurance premium to have coverage.

How can I find more information about how much my drug will cost?

Information about prescription drug cost sharing amounts can be found in our Benefits-at-a-Glance brochure or by entering prescription information into the “Search Drugs” tool at ConnectiCare.com. This tool will provide an estimate of your cost for formulary drugs. You can also access the tool by downloading the My-ConnectiCare app to your mobile device or creating a profile at Caremark.com. When using the tool on the app or at Caremark.com the tool will consider the total cost sharing you have already paid towards meeting your plan design limits like deductible and out of pocket maximum.

Finding a pharmacy to fill a prescription

Pharmacy Network

ConnectiCare has networks of retail, mail order, and specialty pharmacies that can process and dispense medications using your coverage. To locate an in-network pharmacy, please use the "Find a Pharmacy" tool at ConnectiCare.com. The tool allows you to search pharmacies by zip code, city, country, and state. You can limit search results based on distance, or other specific criteria like store name, language spoken, or services offered. If you are looking for retail pharmacies that participate in the 90-day fill at retail program, participating pharmacies will show "90-day Supply Available" in the details of your search results.

Specialty Pharmacy

ConnectiCare has a network of specialty pharmacies that can process and dispense specialty medications. Specialty medications are placed on Tier 4 on the formulary. Some medications have limited distribution. Limited distribution means the medication is only sold by certain pharmacies. ConnectiCare's Pharmacy Benefit Manager, CVS Caremark, has a specialty pharmacy that provides clinical support to help enrollees manage their medications and conditions. Most specialty medications require Prior Authorization before they are covered. A prescriber can submit Prior Authorization requests directly to ConnectiCare or send a prescription to CVS to begin the process. If mail delivery of the specialty medication is not an option for the enrollee, CVS offers the option to ship the medication to a local CVS pharmacy for pickup. CVS Pharmacy Help Desk can be contacted by calling 1 (888) 407-6425.

Mail Order Pharmacy

Your plan has a network of Mail Order pharmacies that can process and dispense up to 90 days' supply of eligible medications. Eligible medications are marked "MAIL" on the formulary.

Your plan's Pharmacy Benefit Manager has a Mail Order pharmacy. To have prescriptions filled through their service the provider or enrollee can call the FastStart® toll-free number at 1 (800) 875-0867 Monday through Friday 7:00 a.m. to 7:00 p.m. or go to Caremark.com. Your plan's network also offers 90-day fill at network retail pharmacies. If you are looking for retail pharmacies that participate in the 90-day fill at retail program, participating pharmacies will show "90-day Supply Available" in the details of your search results.

Out-of-Network Pharmacy

If the in-network pharmacies do not meet the enrollee's needs an exception can be requested to obtain authorization to use a pharmacy outside of network. Exceptions will be reviewed for medical necessity on a case-by-case basis.

Prescription Claims Processor

ConnectiCare has selected CVS Caremark as the Pharmacy Benefit Management (PBM) Company to manage the prescription benefit for ConnectiCare enrollees.

Questions on processing claims, formulary status or rejected claims may be directed to the CVS Caremark Help Desk at 1 (888) 407-6425. Membership, cost sharing, prescription drug benefit information and eligibility concerns may be addressed by calling the ConnectiCare Customer Support Center at 1 (800) 251-7722. Member Services is available Monday through Friday 8:00 a.m. to 6:00 p.m. Eastern Time. Provider-related questions may be addressed by calling the ConnectiCare Provider Services Help Desk at 1 (800) 828-3407 Monday through Friday 8:00 a.m. – 6:00 p.m. Eastern Time.

Urgent and After-Hours Medication Policy

To prevent an enrollee's condition from worsening in an urgent situation, it may be necessary to dispense a 72-hour supply of an acute medication before Prior Authorization may be obtained from ConnectiCare. (e.g., an enrollee is discharged from a hospital after regular business hours with a special antibiotic prescription).

Pharmacies are instructed to use their professional judgment. ConnectiCare will reimburse pharmacies for a 72-hour supply of an acute medication at contracted rates for these prescriptions. Pharmacies may contact the CVS Caremark Help Desk at 1 (888) 407-6425 to obtain an override for a 72-hour supply.

Pharmacies may call ConnectiCare at 1 (800) 828-3407 on the following business day to obtain authorization to allow the urgent or after-hours prescription to process on-line. It is advised and expected that the pharmacy will provide reasonable documentation of cases where medications were dispensed under these urgent circumstances.

Refill Timing, Synchronization, and Proration

In general, 30-day supplies of medications can be refilled when 85% of the predicted days of use have passed from the date of the prior fill. Please see the "Proration and Synchronization" section of your plan agreement for any drugs that have special refill timing. Your pharmacy or provider can ask to override refill timing limits in order to synchronize the fill dates of your medications by contacting the CVS Caremark® Help Desk at 1 (888) 407-6425. If shorter or longer day supplies are dispensed to synchronize your medications, your cost sharing on those supplies will be prorated.

Prior authorization and exception request procedure

Prior authorization

Drugs that require advanced approval for coverage are reviewed against standard rules to determine medical necessity. Providers must show you have a medically accepted use for the drug and that other treatments have not worked for you or are not clinically appropriate. Other requirements may apply depending on the drug. We may require certain test results to show a drug is right for you. This may be true for Specialty Drugs used to treat long term or other rare conditions. An enrollee's response to drug samples from a provider or a drug maker will not be considered as a reason to bypass standard rules for coverage.

The clinical policies and forms are on our website ConnectiCare.com. The form may be obtained on ConnectiCare.com at the provider forms and documents page. The form must be completed and include all medical information. Otherwise, it will not be accepted. Your provider may use [CoverMyMeds®](#) or [Surescripts®](#) to submit your request electronically.

If your prescription requires a Prior Authorization or Formulary Exception, the request can be considered under Standard or Exigent Circumstances.

- A request is considered an Exigent Circumstance if any of the following apply:
 - You are suffering from a health condition that may seriously jeopardize your life, health, or ability to regain maximum function
 - You are in severe uncontrolled pain, or the urgency of your care requires a rapid coverage decision
 - You are undergoing current treatment using a nonformulary drug. Trials of pharmaceutical samples from your doctor or a manufacturer will not be considered as current treatment
- Supporting information is required to justify the urgency of the request
- Any request that is not considered an Exigent Circumstance is considered a Standard Exception request

You and/or your provider will be notified of our decision, made no later than:

- 24 hours following receipt of request with Exigent Circumstances.
- 72 hours following receipt of request with Standard Circumstances.

If a determination is not made within these timeframes, the request will automatically be approved.

If the request is approved, we will send a letter to your prescriber. We will include how long the request is approved for before renewal of the authorization is required. If the request is not approved, we will send a letter with the reasons why and give instructions on your rights for follow up.

Following section 38 of Chapter 700c of Connecticut Health Insurance Legislation, if a drug request is approved, it will continue to be covered for the length of the prescription, including refills. ConnectiCare will not limit or exclude coverage for a drug if we previously approved it for your condition and your provider continues to prescribe it, as long as the drug is appropriately prescribed and continues to be safe and effective.

Requesting an Exception

Can I have a drug covered if it is not on the formulary or does not follow plan requirements such as step therapy?

ConnectiCare has a process to allow you to request clinically appropriate drugs that are not on the formulary or that have requirements or limits under your plan. Your doctor may order a drug that is not on the formulary but that he or she believes is best for you. You may be taking a drug that is no longer on the new plan year's drug list. Pharmacy systems may require you to try certain drugs before others are covered ("Step Therapy"). Your doctor may send ConnectiCare a formulary exception request using the Prior Authorization process above.

ConnectiCare will grant an exception for a nonformulary drug or step therapy requirement if its reviewers determine the supporting information shows any of the following:

- The member has a medical contraindication to formulary or required drug(s)
- The required drug(s) will likely cause a clinically predictable adverse reaction if taken by the member
- The required drug is expected to be ineffective based on the member's documented clinical characteristics
- The member has tried the required drug, a related drug, or a drug that works in a similar way, and discontinued it due to lack of effectiveness, loss of effect, or adverse event
- The member is established on the drug as a current treatment from previous insurance coverage. If the established drug is a brand drug and we cover the generic or interchangeable biological product, an exception may be given if switching to the required drug will likely cause clinically predictable adverse reactions or harm
- The supporting medical information clearly shows formulary or required drugs are not in the member's best interest, because they are likely to:
 - Present a barrier to treatment plan adherence, or
 - Negatively impact a member's comorbid condition, or
 - Cause a clinically predictable negative drug interaction, or
 - Decrease the member's ability to achieve or maintain reasonable functional ability in performing daily activities

Review timeframes and conditions are found in the "Prior Authorization" section of this guide. If the request is approved, ConnectiCare will send a letter to your doctor. If the request is not approved, we will send a letter to you with the reasons why and give instructions on your rights for follow up. If you disagree with the denial reasons, you can appeal the decision. Your doctor can request an external exception review.

Following section 38 of Chapter 700c of Connecticut Health Insurance Legislation, we cannot require you to repeat step therapy on a formulary drug if you changed insurance plans and are continuing a drug that is now subject to step therapy requirements under your ConnectiCare plan. Your provider will have to notify us with an exception

request so we can know you are continuing to take the drug from before, it is appropriately prescribed, and it is safe and effective for your condition.

Are there any drugs or other products that are not covered at all?

Non-covered drugs or other products such as benefit exclusions are not covered at all. They cannot be approved for coverage by formulary exception. Your plan does not cover certain types of drugs that are listed as benefit exclusions in the plan policy. For more information refer to the sections in your Agreement (“Evidence of Coverage”) titled “Non-Covered Drugs” and “Exclusions”.

Complaints and Appeals

You may file a grievance or complaint by contacting the ConnectiCare Customer Support Center at (800) 251-7722. If ConnectiCare denies your drug request, a notice of rights to appeal the decision will be included in the notice of action. For more information refer to the section in your Agreement (policy) that covers “Complaints and Appeals”. A copy of the Agreement, also called the Evidence of Coverage, can be found on ConnectiCare.com.

Legend

What are the Requirements and Limits on the drug list?

Requirements and limits may be set up for certain drugs. Drugs may have the following requirements and limitations:

Requirements/Limits	Description
AGE	Age limits apply. We only pay for this drug or dosage form for certain age groups based on information about the drug's safety, efficacy, and cost.
MAIL	Drug is eligible for Mail Order and other 90-day fill programs at participating retail pharmacies. It is your choice if you want to use Mail Order programs. There is no discount to cost sharing for using 90-day fill programs.
MED	Morphine Equivalent Dose limits apply. Quantities of this drug are limited to the equivalent ("EQ") of 90 milligrams of morphine per day of supply filled.
ONC	Abbreviation for "Oncology" or cancer specialty. Drugs taken by mouth to treat cancer have monthly Cost Sharing limits under your plan.
OTC	Over-the-Counter dosage forms are covered on the drug list with a valid prescription from a provider.
PA	Prior Authorization is required. We require advanced approval of coverage on some drugs before they will be paid for.
QL	Quantity Limits apply. We will pay for a maximum daily amount based on information about the drug's medically accepted use and cost.
ST	Step Therapy is required. If we have paid for you to have the required Step Therapy drug(s) in the past, this drug will be paid for at the pharmacy without need for a Prior Authorization or Step Therapy exception request. The drug list will show you which drugs are required first and for how long.

Some drugs are designated "Preferred Brand" in the drug class they are listed. If there is a drug in the same class as the drug you are requesting and it is the Preferred Brand drug in the class, we require that the Preferred Brand be used first or instead. Specific drugs that require use of a Preferred Brand drug first may also be indicated "Medical Necessity PA". Medical Necessity Prior Authorization requirements apply to some Tier 4 Specialty Drugs.

Formulario y guía de medicamentos

Formulario de medicamentos de ConnectiCare (Lista de medicamentos)

Su plan tiene una lista de medicamentos que están cubiertos. La lista se llama Formulario de medicamentos. El formulario cambia de un año del plan a otro. También se hacen actualizaciones menores cada 3 meses. Los medicamentos de la lista son elegidos por un grupo de médicos y farmacéuticos de su aseguradora y la comunidad médica. El grupo se reúne cada tres meses para hablar sobre los medicamentos que están en el formulario. Revisan nuevos medicamentos y cambios en la atención médica. Tratan de encontrar los medicamentos más eficaces para diferentes afecciones. Los cambios se realizan al Formulario de medicamentos por diferentes razones. Entre las razones se encuentran:

- Cambios en la práctica médica.
- Hay nuevos medicamentos disponibles.
- Hay nuevos genéricos disponibles que reemplazan a los medicamentos de marca previamente cubiertos.
- Nuevos requisitos de cobertura de medicamentos estatales o federales.
- Un medicamento ya no está disponible o tiene un nuevo problema de seguridad.

ConnectiCare proporcionará un aviso con al menos 90 días de anticipación sobre este tipo de actualizaciones del formulario:

- Un medicamento recetado está aprobado por la Food and Drug Administration (FDA) de los Estados Unidos con competencia federal para su uso sin una receta médica.
- Trasladar el medicamento a un nivel superior en la lista de medicamentos, trasladar el medicamento del estado preferido al no preferido u otros cambios que hagamos en la lista de medicamentos que ocasionen un costo compartido más alto para el miembro por el medicamento del formulario debido a que un producto genérico para ese medicamento se vuelve disponible y se agrega al formulario a un costo más bajo que el producto de marca.

Si la Food and Drug Administration (FDA) de los Estados Unidos con competencia federal considera que el medicamento no es seguro o se retira del mercado por otros motivos, ConnectiCare proporcionará un aviso con al menos 90 días de anticipación sobre la eliminación de este medicamento del formulario. Es posible que su médico avise por escrito a ConnectiCare que el medicamento recetado sigue siendo médicamente necesario para usted a pesar de las conclusiones de la FDA y que podrá seguir usándolo. La lista de medicamentos más actualizada de su plan se encuentra en nuestro sitio web ConnectiCare.com. Se incluye un aviso de todos los cambios en el documento de la lista de medicamentos con cada actualización.

¿La lista de medicamentos incluye los medicamentos inyectables con los que un proveedor me trata en una clínica o en otro lugar?

En general, los medicamentos de la lista de medicamentos son los que su proveedor le receta para que los obtenga en una farmacia y se los administre usted mismo. La mayoría de los medicamentos inyectables cuya administración requiere la ayuda de un proveedor están cubiertos en virtud del beneficio médico, en vez de del beneficio de medicamento recetado (“farmacia”). Su proveedor tiene instrucciones nuestras sobre cómo lograr la aprobación para los medicamentos que compra y le ayuda a administrar. Se pueden aprobar algunos medicamentos inyectables en una farmacia usando su beneficio de medicamentos recetados.

Tengo preguntas sobre cómo mi plan cubre los medicamentos.

Esta guía contiene muchos detalles para preguntas comunes, como estas:

- ¿Puedo surtir mi medicamento recetado en una farmacia minorista?
- ¿Dónde puedo ver el monto en dólares del costo compartido de mi medicamento recetado?

- ¿Cuál es el proceso para solicitar un medicamento que tiene requisito de autorización previa?
- ¿Cómo puedo solicitar una excepción para un medicamento que no está en el formulario o tiene requisitos de tratamiento escalonado?
- ¿Mi medicamento está cubierto por el beneficio de medicamentos recetados o por el beneficio médico?

También puede llamarnos y hacer preguntas específicas sobre la cobertura de un medicamento. Llame gratis al **1 (800) 251-7722**, de lunes a viernes, **de 8:00 a.m. a 6:00 p.m.** Si es sordo o tiene dificultades auditivas, marque el 711 para comunicarse con el Servicio de Telecomunicaciones. También puede solicitarnos que le enviemos por correo una copia de la lista de medicamentos.

El Manual para miembros y el acuerdo del plan también contienen información importante sobre la cobertura. Consulte el acuerdo del plan (“Evidencia de Cobertura”) para obtener información sobre cobertura anticonceptiva, exclusiones de beneficios, servicios de cuidados paliativos y más.

Si un medicamento está incluido en el formulario, ¿me lo recetarán?

Que un medicamento esté incluido en el formulario no garantiza que su médico se lo recete. Esta guía les permite a usted y a su médico saber qué medicamentos recetados están cubiertos por su plan. Es posible que los medicamentos que no están en esta lista no estén cubiertos por su plan y le cuesten más. Puede solicitar cobertura de medicamentos que no están en el formulario. Las solicitudes de cobertura de medicamentos que no están en el formulario se considerarán para un uso médicamente aceptado cuando no se puedan usar las opciones del formulario y se cumplen otros requisitos de cobertura. Los detalles se incluyen en esta guía.

Definiciones

“Medicamento de marca” es aquel que se comercializa bajo un nombre patentado y una marca comercial protegida. El nombre de marca del medicamento deberá estar escrito en letras MAYÚSCULAS.

“Coseguro” es un porcentaje del costo de un beneficio de atención médica cubierto que un inscrito paga después de haber pagado el deducible, si se aplica un deducible al beneficio de atención médica, como el beneficio de medicamentos recetados.

“Copago” es un monto fijo que un inscrito paga por un beneficio de atención médica cubierto después de haber pagado el deducible, si se aplica un deducible al beneficio de atención médica, como el beneficio de medicamentos recetados.

“Deducible” es el monto que paga un inscrito por los beneficios de atención médica cubiertos antes de que el plan de salud del inscrito comience a pagar la totalidad o parte del costo del beneficio de atención médica según los términos de la póliza.

“Forma farmacéutica” es la forma física en la que se produce y dispensa un medicamento recetado, como un comprimido, una cápsula o un inyectable.

“Nivel de medicamento” es un grupo de medicamentos recetados que corresponde a un nivel de costo compartido específico en la cobertura de medicamentos recetados del plan de salud. El nivel en el que se ubica un medicamento recetado determina la parte del costo del medicamento que corresponde al inscrito.

“Inscrito” es una persona inscrita en un plan de salud que tiene derecho a recibir servicios del plan. Todas las referencias a los inscritos en esta plantilla de formulario también incluirán al suscriptor según se define en esta sección a continuación.

“Solicitud de excepción” es una solicitud de cobertura de un medicamento recetado. Si un inscrito, su designado o el proveedor de atención médica que emite la receta presentan una solicitud de excepción para la cobertura de un medicamento recetado, el plan de salud debe cubrir el medicamento recetado cuando se determine que es médicamente necesario para tratar la afección del inscrito.

“Circunstancias apremiantes” es cuando un inscrito sufre una afección médica que puede poner en grave peligro su vida, su salud o su capacidad de recuperar una función en su totalidad, o cuando un inscrito está recibiendo un tratamiento en curso que utiliza un medicamento no incluido en el formulario.

“Formulario” es la lista completa de medicamentos preferidos para su uso y elegibles para la cobertura de un producto de plan de salud, e incluye todos los medicamentos cubiertos por el beneficio de medicamentos recetados para pacientes ambulatorios del producto de plan de salud. El formulario también se conoce como lista de medicamentos recetados.

“Medicamento genérico” es el mismo medicamento que su equivalente de marca en cuanto a dosis, seguridad, concentración, forma de administración, calidad, desempeño y uso previsto. Un medicamento genérico aparece en la lista en letras minúsculas en cursiva y negrita.

“Medicamento no incluido en el formulario” es un medicamento recetado que no aparece en el formulario del plan de salud.

“Gastos de bolsillo” son los copagos, el coseguro y el deducible correspondientes, más todos los costos de servicios de atención médica que no están cubiertos por el plan de salud.

“Proveedor que emite recetas” es un proveedor de atención médica autorizado para emitir una receta para tratar una afección médica para un inscrito en un plan de salud.

“Receta” es una orden oral, escrita o electrónica de un proveedor que emite recetas para un inscrito específico, que contiene el nombre y la cantidad del medicamento, la fecha de emisión, el nombre y la información de contacto del proveedor que emite recetas, la firma del proveedor que emite recetas si la receta es por escrito y, si el inscrito lo solicita, la afección médica o el propósito para el cual se está recetando el medicamento.

“Medicamento recetado” es aquel que ha recetado el proveedor que emite recetas al inscrito y que requiere de una receta médica según la ley correspondiente.

“Autorización previa” es un requisito del plan de salud según el cual el inscrito, o el proveedor que emite recetas al inscrito, debe obtener la autorización del plan de salud para un medicamento recetado antes de que el plan de salud lo cubra. El plan de salud otorgará una autorización previa cuando sea médicamente necesario que el inscrito obtenga el medicamento.

“Tratamiento escalonado” es un proceso que especifica la secuencia en la que se recetan diferentes medicamentos para una afección médica determinada y que son médicamente apropiados para un paciente en particular. El plan de salud puede requerir que el inscrito pruebe uno o más medicamentos para tratar su afección médica antes de que el plan de salud cubra un medicamento en particular para la afección de conformidad con una solicitud de tratamiento escalonado. Si el proveedor que emite recetas al inscrito presenta una solicitud de excepción para el tratamiento escalonado, los planes de salud harán excepciones para el tratamiento escalonado cuando se cumplan los criterios.

“Suscriptor” significa la persona que es responsable del pago a un plan o cuyo empleo u otro estatus, excepto la dependencia familiar, es la base para la elegibilidad para la membresía en el plan.

Uso del formulario y la guía de medicamentos

¿Cómo puedo localizar un medicamento que está en la lista de medicamentos?

La lista de medicamentos está organizada alfabéticamente por categoría terapéutica y clase utilizando la clasificación del Servicio Estadounidense de Formulario Hospitalario (AHFS). Dentro de la categoría y clase, los nombres de los medicamentos también están organizados en orden alfabético. Si no conoce la categoría o clase del medicamento que está buscando, hay dos formas de buscar el medicamento por nombre.

- Si está utilizando una versión electrónica de la lista de medicamentos, puede utilizar la función de búsqueda en PDF presionando Ctrl + F en el teclado de su computadora. Escriba el nombre del medicamento que está buscando en el cuadro de búsqueda.
- Si está utilizando una versión impresa de la lista de medicamentos, puede buscar el nombre del medicamento en el índice al final de esta guía.

Las entradas de medicamentos en la lista contienen el nombre del medicamento, el nivel del medicamento y otros detalles de cobertura para todos los medicamentos y artículos cubiertos por el beneficio de medicamentos recetados de su plan.

A continuación, se muestran ejemplos de cómo se puede mostrar un medicamento en la lista de medicamentos (la cobertura real puede diferir de este ejemplo).

Nombre del medicamento	Nivel del medicamento	Requisitos/límites
COUMADIN TAB 1MG (<i>warfarin sodium</i>)	Nivel 2	QL (límite de cantidad) (300 tabs/30 días); CORREO
<i>warfarin sodium tab 1 mg</i>	Nivel 1	QL (300 tabs/30 días); CORREO
<i>warfarin sodium tab 1 mg</i> (Jantoven)	Nivel 1	QL (300 ea/30 días); CORREO

¿Qué nombres de medicamentos se utilizan en la lista?

La lista de medicamentos utiliza nombres de marcas registradas y nombres no patentados o “genéricos” para mostrar qué forma del medicamento está cubierta. También existen nombres de marcas registradas que son utilizados por ciertos medicamentos genéricos. La forma en que se muestra el nombre de un medicamento en la lista de medicamentos le indicará si lo que está cubierto es la forma de marca, la forma genérica o la forma genérica de marca registrada. El ejemplo anterior muestra las formas de marca, genéricas y genéricas de marca registrada del medicamento “warfarin sodium” (warfarina sódica).

Cuando se cubre la forma de marca de un medicamento, el nombre del medicamento aparecerá en letras MAYÚSCULAS como su NOMBRE DE MARCA. El nombre no patentado o “nombre genérico” del medicamento de marca aparecerá entre paréntesis, en letras *minúsculas en cursiva y negrita*. Cuando se cubre la forma genérica del medicamento, se enumera por separado con sus *nombres genéricos en minúsculas en cursiva y negrita*. Un medicamento genérico que está cubierto como forma genérica de marca registrada se incluirá por separado con su *nombre genérico* seguido del nombre de marca registrada entre paréntesis. El nombre genérico registrado se mostrará con la primera letra de cada palabra en mayúscula.

Si tanto la forma de marca como la forma genérica de un medicamento están cubiertas en el formulario, cada una de ellas aparecerá como entradas de medicamentos separadas. Por ejemplo, COUMADIN y *warfarin sodium* se enumeran por separado para mostrar que tanto la forma de marca como la forma genérica están cubiertas en el formulario. En este ejemplo también se muestra una forma genérica registrada (Jantoven). Se pueden aplicar diferentes niveles de medicamentos y requisitos/límites para una forma de marca registrada en comparación con una forma genérica de un medicamento si varias formas de medicamentos figuran como cubiertas en la lista de medicamentos real.

¿Qué son los niveles de medicamentos y cómo afectan mi parte del costo del medicamento?

Colocamos los medicamentos en diferentes niveles en función de qué tan bien mejoran la salud y cuánto cuestan en comparación con tratamientos similares. Su plan tiene los siguientes niveles. Para los Niveles del 1 a 4, en general, cuanto más bajo sea el nivel del medicamento, menor será su parte del costo.

Aquí hay más detalles sobre qué medicamentos están en qué niveles.

Nivel del medicamento	Descripción
Nivel 1	Medicamentos genéricos preferidos y medicamentos de marca de bajo costo; menor costo compartido para el inscrito.
Nivel 2	Medicamentos genéricos no preferidos y medicamentos de marca preferidos; Costos compartidos más altos que el Nivel 1.
Nivel 3	Medicamentos no preferidos, de marca y genéricos. Costo compartido más alto que los medicamentos de niveles más bajos utilizados para tratar las mismas afecciones.
Nivel 4	Medicamentos especializados, tanto de marca como genéricos. Costo compartido más alto que los medicamentos de niveles más bajos utilizados para tratar las mismas afecciones, si están disponibles. La mayoría de los medicamentos especializados cubiertos en su plan estarán disponibles a través de una farmacia de la red de farmacias especializadas. Algunos medicamentos especializados solo se venden en determinadas farmacias que la compañía farmacéutica ha elegido (“distribución limitada”).
PREV	Medicamentos preventivos, medicamentos y dispositivos de planificación familiar (es decir, anticoncepción) y otros medicamentos con un costo compartido de \$0.
DME	Equipo médico duradero. El costo compartido se ajusta al costo compartido de los beneficios médicos para DME para el producto no farmacológico en la lista de medicamentos

La sección 38 del Capítulo 700c de la Legislación de Seguros de Salud de Connecticut indica lo siguiente:

- Su plan cubre medicamentos y formas farmacéuticas para servicios preventivos (PREV) reconocidos a nivel nacional con un costo compartido de \$0 cuando se recetan para que usted los use de acuerdo con esas recomendaciones.
- Su plan cubre una variedad de medicamentos, dispositivos y productos de venta libre para la planificación familiar (es decir, anticoncepción) en virtud del beneficio de medicamentos recetados, con un costo compartido de \$0 (PREV).
- Su plan cubre tratamiento y pruebas para la diabetes, lo que incluye insulina, glucagón, dispositivos y suministros medicamentosa necesarios en el nivel de DME y otros medicamentos recetados.

Cuando la cobertura de medicamentos no incluidos en el formulario se aprueba en virtud de una excepción del formulario, los inscritos pagan el costo compartido del Nivel 3 para los medicamentos no especializados o el costo compartido del Nivel 4 para los medicamentos especializados. Consulte su acuerdo del plan para obtener más información sobre los costos compartidos en el caso de las excepciones del formulario.

Ciertos tipos de medicamentos cubiertos por su plan tienen límites de costos compartidos cada vez que los surte. Si su estado tiene límites específicos, el costo compartido será el menor entre el costo compartido de diseño de su plan o cualquier límite que corresponda.

- Hay límites en el costo compartido de los medicamentos contra el cáncer que se toman por vía oral.
- Hay un límite de \$100 en cada suministro de 30 días de suministros relacionados con la diabetes.

- Hay un límite de \$25 por cada suministro de insulina de 30 días.
- Hay un límite de \$25 por cada suministro de glucagón de 30 días.

¿Cómo funcionan los deducibles y los máximos de gastos de bolsillo?

Comprender cómo funcionan los deducibles y los máximos gastos de bolsillo del plan puede ayudarlo a comprender por qué algunos de sus medicamentos y servicios cubiertos tienen montos de pago del miembro más altos al comienzo del año que el resto del año. Hay herramientas en línea disponibles en el portal para miembros que ayudan a hacer un seguimiento de los saldos de pago de los miembros.

Un deducible es el monto total de gastos de bolsillo que los miembros pagan por los beneficios cubiertos antes de que el plan comience a pagar por esos beneficios. Una vez que se alcanza el deducible, el monto que paga el miembro se convierte en una tasa de costo compartido definida, ya sea un monto de copago fijo en dólares o un coseguro porcentual.

- La información de diseño de su plan muestra cuáles beneficios tienen un requisito deducible y cuáles no. La información muestra cuál es la tasa de costo compartido para un beneficio determinado “después del deducible”, si se aplica el deducible.
- Es importante saber si su plan tiene un deducible combinado compartido entre todos los beneficios o si tiene deducibles separados para los beneficios médicos y de farmacia.
- Solamente los montos de gastos de bolsillo que usted pague como deducible se contabilizarán para el deducible. Esto significa que los montos que usted paga en concepto de costos compartidos por beneficios que no tienen un requisito de deducible no se cuentan para el deducible. Sin embargo, todos los montos que usted paga para su deducible también se cuentan para sus máximos de gastos de bolsillo. La asistencia al paciente de las compañías farmacéuticas no se cuenta como un verdadero gasto de bolsillo o deducible del miembro, a menos que lo exijan las reglas estatales o federales.

Un máximo de gastos de bolsillo es un límite en los montos totales que usted y los miembros de su familia cubiertos pagan por todos los medicamentos y servicios cubiertos por el plan durante el año del plan. Si los totales que usted paga durante el año del plan alcanzan el máximo de gastos de bolsillo y permanece allí, no deberá pagar más por medicamentos y servicios cubiertos por el beneficio después de ese momento, por el resto del año del plan o el período de cobertura.

- El máximo de gastos de bolsillo cuenta el monto total que el miembro ha pagado por medicamentos y servicios cubiertos por los beneficios médicos y de farmacia.
- Hay un máximo de gastos de bolsillo individual para cada persona cubierta por su plan.
- Hay un máximo de gastos de bolsillo familiar si dos o más miembros de la familia están cubiertos por el mismo plan. Si se alcanza el máximo de gastos de bolsillo familiar, no habrá más pagos adeudados por medicamentos y servicios cubiertos por el plan después de ese momento para ninguno de los miembros de la familia cubiertos.

Algunos eventos pueden afectar si su deducible y los saldos del máximo de gastos de bolsillo han alcanzado los límites y se mantienen allí.

- Si cambia de plan durante el año del plan, es posible que tenga un deducible y un máximo de gastos de bolsillo diferentes.
- Las actividades de reclamaciones tanto en los canales de beneficios médicos como de farmacia pueden afectar sus saldos.
- Según el momento, los saldos pueden incluir montos de pago del miembro que usted está a punto de pagar por reclamaciones médicas y de farmacia recientes.
- La asistencia al paciente de las compañías farmacéuticas no se cuenta como un verdadero gasto de bolsillo o deducible del miembro, a menos que lo exijan las reglas estatales o federales.

Las herramientas en línea para sus saldos reflejan los montos totales de pago del miembro adeudados en todas las reclamaciones que se han procesado a través del beneficio hasta el presente. Tenga en cuenta los medicamentos disponibles en la farmacia y los montos adeudados por los mismos cuando revise sus saldos.

Los deducibles y máximos de gastos de bolsillo se aplican al período de cobertura del año del plan en el que recibió medicamentos y servicios cubiertos por los que se debían montos de pago como miembro. Los saldos pagados para cubrir los deducibles y los máximos de gastos de bolsillo comienzan a partir de cada nuevo año del plan y período de cobertura. Las primas de seguro no se contabilizan como gastos de bolsillo a los efectos de los saldos deducibles y máximos de gastos de bolsillo. Debe continuar pagando la prima del seguro para tener cobertura.

¿Cómo puedo encontrar más información sobre cuánto costará mi medicamento?

Puede encontrar información sobre los montos de costo compartido de los medicamentos recetados en nuestro folleto “Resumen de beneficios” o puede ingresar la información de los medicamentos recetados en la herramienta “Search Drugs” (Buscar medicamentos) en ConnectiCare.com. Esta herramienta le proporcionará una estimación del costo de los medicamentos del formulario. También puede acceder a la herramienta con la aplicación My-ConnectiCare para su dispositivo móvil o puede crear un perfil en Caremark.com. Al usar la herramienta en la aplicación o en Caremark.com, esta considerará el costo total compartido que ya pagó para alcanzar los límites de diseño de su plan, como el deducible y el máximo de gastos de bolsillo.

Encontrar una farmacia para surtir un medicamento recetado

Red de farmacias

ConnectiCare tiene redes de farmacias minoristas, de pedidos por correo y especializadas que pueden procesar y dispensar medicamentos utilizando su cobertura. Para encontrar una farmacia dentro de la red, utilice la herramienta “Find a Pharmacy” (Buscar una farmacia) en ConnectiCare.com. La herramienta le permite buscar farmacias por código postal, ciudad, condado y estado. Puede limitar los resultados de búsqueda según la distancia u otros criterios específicos como el nombre de la tienda, el idioma que se habla o los servicios ofrecidos. Si está buscando farmacias minoristas que participen en el programa de surtido de 90 días, las que participan mostrarán “90-day Supply Available” (Suministro de 90 días disponible) en los detalles de los resultados de su búsqueda.

Farmacia especializada

ConnectiCare tiene una red de farmacias especializadas que pueden procesar y dispensar medicamentos especializados. Los medicamentos especializados están ubicados en el Nivel 4 del formulario. Algunos medicamentos tienen una distribución limitada. Distribución limitada significa que el medicamento solo se vende en ciertas farmacias. El administrador de beneficios de farmacia de ConnectiCare, CVS Caremark, tiene una farmacia especializada que brinda apoyo clínico para ayudar a los inscritos a administrar sus medicamentos y afecciones. La mayoría de los medicamentos especializados requieren autorización previa antes de ser cubiertos. Un profesional que emite recetas puede enviar solicitudes de autorización previa directamente a ConnectiCare o enviar una receta a CVS para comenzar el proceso. Si la entrega por correo del medicamento especializado no es una opción para el inscrito, CVS ofrece la opción de enviar el medicamento a una farmacia CVS local para que lo recoja. Puede comunicarse con el centro de ayuda de CVS Pharmacy llamando al 1 (888) 407-6425.

Farmacias de pedido por correo

Su plan cuenta con una red de farmacias con servicio de pedidos por correo que pueden procesar y dispensar hasta 90 días de suministro de medicamentos elegibles. Los medicamentos elegibles están marcados como “CORREO” en el formulario. El administrador de beneficios de farmacia de su plan tiene una farmacia de pedidos por correo. Para surtir recetas a través de su servicio, el proveedor o el inscrito pueden llamar al número gratuito de FastStart® al 1 (800) 875-0867, de

lunes a viernes, de 7:00 a.m. a 7:00 p.m. o ir a Caremark.com. La red de su plan también ofrece surtido de 90 días en farmacias minoristas de la red. Si está buscando farmacias minoristas que participen en el programa de surtido de 90 días, las que participan mostrarán “90-day Supply Available” (Suministro de 90 días disponible) en los detalles de los resultados de su búsqueda.

Farmacias fuera de la red

Si las farmacias de la red no satisfacen las necesidades del inscrito, se puede solicitar una excepción para obtener autorización para utilizar una farmacia fuera de la red. Las excepciones se revisarán según la necesidad médica caso por caso.

Procesador de reclamaciones de medicamentos recetados

ConnectiCare ha seleccionado a CVS Caremark como la compañía de administración de beneficios de farmacia (PBM) para administrar el beneficio de medicamentos recetados para los inscritos en ConnectiCare.

Si tiene preguntas sobre el procesamiento de reclamaciones, el estado del formulario o las reclamaciones rechazadas, puede comunicarse con el centro de ayuda de CVS Caremark al 1 (888) 407-6425. Puede abordar preocupaciones sobre la membresía, los costos compartidos, la información sobre los beneficios de medicamentos recetados y la elegibilidad llamando al Centro de Servicio al Cliente de ConnectiCare al 1 (800) 251-7722. Servicios para Miembros está disponible de lunes a viernes, de 8:00 a.m. a 6:00 p.m., hora del este. Si tiene preguntas relacionadas con los proveedores, llame al centro de ayuda para servicios de proveedores de ConnectiCare al 1 (800) 828-3407, de lunes a viernes, de 8:00 a.m. a 6:00 p.m., hora del este.

Política de medicamentos urgentes y fuera del horario de atención

Para evitar que la afección de un inscrito empeore en una situación urgente, puede ser necesario dispensar un suministro para 72 horas de un medicamento agudo antes de que se pueda obtener la autorización previa de ConnectiCare (p. ej., un inscrito recibe el alta de un hospital fuera del horario regular de atención con una receta especial de antibióticos).

Las farmacias tienen instrucciones de utilizar su juicio profesional. ConnectiCare reembolsará a las farmacias por un suministro para 72 horas de un medicamento urgente a las tarifas contratadas para estos. Las farmacias pueden comunicarse con el centro de ayuda de CVS Caremark al 1 (888) 407-6425 para obtener una autorización para un suministro de 72 horas.

Las farmacias pueden llamar a ConnectiCare al 1 (800) 828-3407 el siguiente día hábil para obtener una autorización que permita que el medicamento recetado urgente o fuera del horario regular se procese en línea. Se informa y se espera que la farmacia proporcionará documentación razonable de los casos en los que se dispensaron los medicamentos en estas circunstancias urgentes.

Tiempo de resurtido, sincronización y prorrateo

En general, los suministros de medicamentos para 30 días se pueden volver a surtir cuando haya transcurrido el 85% de los días de uso previstos desde la fecha del resurtido anterior. Consulte la sección “Prorrateo y sincronización” de su acuerdo de plan para conocer todos los medicamentos que tienen un tiempo de resurtido especial. Su farmacia o proveedor pueden solicitar que se anulen los límites de tiempo de resurtido para sincronizar las fechas de surtido de sus medicamentos comunicándose con el centro de ayuda de CVS Caremark® al 1 (888) 407-6425. Si se dispensan suministros para más días o menos días para sincronizar sus medicamentos, se prorrateará el costo compartido de esos suministros.

Procedimiento de autorización previa y solicitud de excepción

Autorización previa

Los medicamentos que requieren aprobación anticipada para su cobertura se evalúan según reglas estándar para determinar la necesidad médica. Los proveedores deben demostrar que usted tiene un uso médicamente aceptado para el medicamento y que otros tratamientos no han funcionado para usted o no son clínicamente apropiados. Pueden aplicarse otros requisitos dependiendo del medicamento. Es posible que solicitemos los resultados de ciertas pruebas que muestren que un medicamento es adecuado para usted. Esto puede ser válido para los medicamentos especializados que se utilizan para tratar afecciones a largo plazo u otras afecciones poco frecuentes. La respuesta de un inscrito a las muestras de medicamentos de un proveedor o un fabricante de medicamentos no se considerará como una razón para eludir las reglas estándar de cobertura.

Las políticas clínicas y los formularios se encuentran en nuestro sitio web ConnectiCare.com. Puede obtener el formulario en ConnectiCare.com en la página de formularios y documentos del proveedor. El formulario debe estar lleno e incluir toda la información médica. De lo contrario, no se aceptará. Su proveedor puede utilizar [CoverMyMeds®](#) o [Surescripts®](#) para enviar su solicitud electrónicamente.

Si su medicamento recetado requiere una autorización previa o una excepción de formulario, la solicitud puede considerarse de conformidad con circunstancias estándar o apremiantes.

- Una solicitud se considera una circunstancia apremiante si se aplica cualquiera de las siguientes situaciones:
 - Usted padece una afección médica que puede poner en grave riesgo su vida, su salud o su capacidad para recuperar la función máxima.
 - Usted tiene dolor intenso no controlado, o la urgencia de su atención requiere una decisión de cobertura rápida.
 - Está recibiendo tratamiento actualmente con un medicamento no incluido en el formulario. Las pruebas con muestras farmacéuticas de su médico o de un fabricante no se considerarán tratamiento actual.
- Se requiere información de respaldo para justificar la urgencia de la solicitud.
- Cualquier solicitud que no se considere una circunstancia apremiante se considera una solicitud de excepción estándar.

Usted o su proveedor serán notificados de nuestra decisión, tomada a más tardar en los siguientes tiempos:

- 24 horas después de recibir la solicitud con las circunstancias apremiantes.
- 72 horas después de recibir la solicitud con las circunstancias estándar.

Si no se toma una determinación en estos plazos, la solicitud se aprobará automáticamente.

Si se aprueba la solicitud, le enviaremos una carta al profesional que emite recetas. Incluiremos durante cuánto tiempo se aprueba la solicitud antes de que sea necesaria la renovación de la autorización. Si la solicitud no es aprobada, le enviaremos una carta para explicar las razones y le daremos instrucciones sobre sus derechos para el seguimiento.

De acuerdo con la sección 38 del Capítulo 700c de la Legislación de Seguros de Salud de Connecticut, si se aprueba una solicitud de medicamento, este seguirá estando cubierto por la duración de la receta médica, incluidos los resurtidos. [ConnectiCare](#) no limitará ni excluirá la cobertura de un medicamento si lo aprobamos previamente para su afección y su proveedor continúa recetándolo, siempre que el medicamento se recete adecuadamente y siga siendo seguro y eficaz.

Solicitar una excepción

¿Puedo tener cubierto un medicamento si no está en el formulario o no sigue los requisitos del plan, como el tratamiento escalonado?

ConnectiCare tiene un proceso que le permite solicitar medicamentos clínicamente apropiados que no están en el formulario o que tienen requisitos o límites según su plan. Es posible que su médico le ordene un medicamento que no está en el formulario pero que considera que es mejor para usted. Es posible que esté tomando un medicamento que ya no está en la lista de medicamentos del nuevo año del plan. Los sistemas farmacéuticos pueden exigirle que pruebe ciertos medicamentos antes de que otros estén cubiertos (“tratamiento escalonado”). Su médico puede enviar a ConnectiCare una solicitud de excepción de formulario utilizando el proceso de autorización previa mencionado anteriormente.

ConnectiCare otorgará una excepción para un medicamento no incluido en el formulario o un requisito de tratamiento escalonado si sus revisores determinan que la información de respaldo muestra cualquiera de las siguientes situaciones:

- El miembro tiene una contraindicación médica para los medicamentos del formulario o solicitados.
- Es probable que los medicamentos solicitados provoquen una reacción adversa clínicamente predecible si el miembro los toma.
- Se espera que el medicamento solicitado sea ineficaz según las características clínicas documentadas del miembro.
- El miembro ha probado el medicamento solicitado, un medicamento relacionado o un medicamento que funciona de manera similar y lo ha interrumpido debido a la falta de eficacia, pérdida de efecto o evento adverso.
- El miembro ya usa el medicamento como un tratamiento actual de una cobertura de seguro anterior. Si el medicamento establecido es un medicamento de marca y cubrimos el producto biológico genérico o intercambiable, se puede otorgar una excepción si el cambio al medicamento solicitado probablemente causará reacciones adversas o daños clínicamente predecibles.
- La información médica de respaldo muestra claramente que los medicamentos del formulario o solicitados no son lo mejor para el miembro, ya que es probable que:
 - representen un obstáculo para cumplir con el plan de tratamiento;
 - afecten negativamente la afección comórbida de un miembro;
 - causen una interacción farmacológica negativa clínicamente predecible;
 - disminuyan la capacidad del miembro para lograr o mantener una capacidad funcional razonable al realizar las actividades diarias.

Los plazos y condiciones de revisión se encuentran en la sección “Autorización previa” de esta guía. Si se aprueba la solicitud, ConnectiCare le enviará una carta a su médico. Si la solicitud no es aprobada, le enviaremos una carta para explicar las razones y le daremos instrucciones sobre sus derechos para el seguimiento. Si no está de acuerdo con los motivos de la denegación, puede apelar la decisión. Su médico puede solicitar una revisión de excepción externa.

De acuerdo con la sección 38 del Capítulo 700c de la Legislación de Seguros de Salud de Connecticut, no podemos exigirle que repita el tratamiento escalonado con un medicamento del formulario si cambió de plan de seguro y continúa tomando un medicamento que ahora está sujeto a los requisitos de tratamiento escalonado según su plan de ConnectiCare. Su proveedor deberá notificarnos con una solicitud de excepción para que podamos saber que usted continúa tomando el medicamento anterior, que está recetado adecuadamente y que es seguro y efectivo para su afección.

¿Hay medicamentos u otros productos que no estén cubiertos en absoluto?

Los medicamentos u otros productos no cubiertos, como las exclusiones de beneficios, no están cubiertos en absoluto. No se pueden aprobar para cobertura mediante excepción de formulario. Su plan no cubre ciertos tipos de medicamentos que figuran como exclusiones de beneficios en la póliza del plan. Para obtener más información, consulte las secciones de su Acuerdo (Evidencia de Cobertura) tituladas “Medicamentos no cubiertos” y “Exclusiones”.

Reclamos y apelaciones

Puede presentar una queja o un reclamo comunicándose con el Centro de Atención al Cliente de ConnectiCare al (800) 251-7722. Si ConnectiCare deniega su solicitud de medicamento, se incluirá un aviso de derechos para apelar la decisión en el aviso de acción. Para obtener más información, consulte la sección de su Acuerdo (póliza) que se refiere a “Reclamos y apelaciones”. Puede encontrar una copia del Acuerdo, también llamado Evidencia de Cobertura, en ConnectiCare.com.

Leyenda

¿Cuáles son los requisitos y límites que figuran en la lista de medicamentos?

Se podrán establecer requisitos y límites para determinados medicamentos. Los medicamentos pueden tener los siguientes requisitos y limitaciones:

Requisitos/límites	Descripción
EDAD	Se aplican límites de edad. Solo pagamos este medicamento o forma de dosificación para ciertos grupos de edad con base en la información sobre la seguridad, la eficacia y el costo del medicamento.
CORREO	El medicamento es elegible para pedidos por correo y otros programas de surtido de 90 días en farmacias minoristas participantes. Usted elige si desea utilizar programas de pedidos por correo. No hay descuento en el costo compartido por utilizar programas de surtido de 90 días.
MED	Se aplican límites de dosis equivalentes de morfina. Las cantidades de este medicamento están limitadas al equivalente (“EQ”) de 90 miligramos de morfina por día de suministro surtido.
ONC	Abreviatura de “Oncología” o especialidad del cáncer. Los medicamentos que se toman por vía oral para tratar el cáncer tienen límites de costos compartidos mensuales según su plan.
OTC	Las formas de dosificación de venta libre están cubiertas en la lista de medicamentos con una receta válida de un proveedor.
PA	Se requiere autorización previa. Requerimos la aprobación anticipada de la cobertura de algunos medicamentos antes de pagarlos.
QL	Se aplican límites de cantidad. Pagaremos una cantidad máxima diaria basados en la información sobre el uso medicamente aceptado y el costo del medicamento.
ST	Se requiere tratamiento escalonado. Si en el pasado hemos pagado para que usted reciba los medicamentos de tratamiento escalonado solicitados, este medicamento se pagará en la farmacia sin necesidad de una autorización previa o de una solicitud de excepción de tratamiento escalonado. La lista de medicamentos le mostrará qué medicamentos se requieren primero y durante cuánto tiempo.

Algunos medicamentos están designados como “Marca preferida” en la clase de medicamento en la que se encuentran. Si hay un medicamento de la misma clase que el medicamento que está solicitando y es el medicamento de marca preferida en la clase, requerimos que se use primero, o en su lugar, el de marca preferida. Los medicamentos específicos que requieren primero el uso de un medicamento de marca preferida también pueden indicarse como “PA de necesidad médica”. Los requisitos de autorización previa por necesidad médica se aplican a algunos medicamentos especializados de Nivel 4.

Formulary Changes Effective April 1, 2026

Drug Name	Description of Formulary Change	Notes/Alternatives
