

MANDATORY DRUG LIMITATIONS PROGRAM

ConnectiCare has a Quality Management Drug Program to limit certain medication quantities to established amounts. The goal of this program is to ensure compliance with U.S. Food and Drug Administration and manufacturer dosing recommendations and/or avoid abuse and misuse. For the following drugs, reimbursement will be limited to the quantities below unless ConnectiCare has received a medical necessity request from the prescribing physician and has authorized the additional quantity.

To submit request for additional quantities, please complete a pre-authorization form. Pre-authorization forms can be obtained from www.connecticare.com.

Providers please note: The quantities below are the limits set up for prescriptions dispensed by pharmacies to members for self administration. **Self-administered medications**, even those not on this list, may not be dispensed for self administration and billed through the medical benefit by a provider, they **must be** dispensed through a participating pharmacy.

To find a drug, use the search feature within your web browser by keying  on your keyboard.

Effective May 2024
