

# Medical Policy: Neuropsychological Testing (Commercial)

POLICY NUMBER	LAST REVIEW DATE	APPROVED BY
MG.MM.ME.18h	02/11/2022	MPC (Medical Policy Committee)

### **IMPORTANT NOTE ABOUT THIS MEDICAL POLICY:**

Property of ConnectiCare, Inc. All rights reserved. The treating physician or primary care provider must submit to ConnectiCare, Inc. the clinical evidence that the patient meets the criteria for the treatment or surgical procedure. Without this documentation and information, ConnectiCare will not be able to properly review the request for prior authorization. This clinical policy is not intended to pre-empt the judgment of the reviewing medical director or dictate to health care providers how to practice medicine. Health care providers are expected to exercise their medical judgment in rendering appropriate care. The clinical review criteria expressed below reflects how ConnectiCare determines whether certain services or supplies are medically necessary. ConnectiCare established the clinical review criteria based upon a review of currently available clinical information (including clinical outcome studies in the peer-reviewed published medical literature, regulatory status of the technology, evidence-based guidelines of public health and health research agencies, evidence-based guidelines and positions of leading national health professional organizations, views of physicians practicing in relevant clinical areas, and other relevant factors). ConnectiCare, Inc. expressly reserves the right to revise these conclusions as clinical information changes and welcomes further relevant information. Identification of selected brand names of devices, tests and procedures in a medical coverage policy is for reference only and is not an endorsement of any one device, test or procedure over another. Each benefit plan defines which services are covered. The conclusion that a particular service or supply is medically necessary does not constitute a representation or warranty that this service or supply is covered and/or paid for by ConnectiCare, as some plans exclude coverage for services or supplies that ConnectiCare considers medically necessary. If there is a discrepancy between this guideline and a member's benefits plan, the benefits plan will govern. In addition, coverage may be mandated by applicable legal requirements of the State of CT and/or the Federal Government. Coverage may also differ for our Medicare members based on any applicable Centers for Medicare & Medicaid Services (CMS) coverage statements including including National Coverage Determinations (NCD), Local Coverage Determinations (LCD) and/or Local Medical Review Policies(LMRP). All coding and web site links are accurate at time of publication.

## Definitions

Neuropsychological testing (NPT)	<p>Neuropsychological testing (NPT) is a specialty area of psychological testing consisting primarily of individually administered tests that comprehensively sample ability domains that are known to be sensitive to the functional integrity of the brain (eg, abstraction, memory and learning, attention, language, problem solving, sensorimotor functions, and constructional praxis). These procedures are objective and quantitative in nature and require that patients directly demonstrate a level of competence in a particular cognitive domain.</p> <p>Cognitive deficits may have nonorganic, transient roots and be associated with anxiety disorders, depressive conditions, and severe psychological trauma.<sup>1</sup></p>
----------------------------------	---

## Guideline

NPT is considered medically necessary for either clarifying a diagnosis or guiding treatment when there has been a significant behavioral change, mental status change, memory loss, or organic brain injury under any of the conditions listed in tables 1 and 2.

Psychological evaluations that can be accomplished through the clinical interview would not require NPT and shall not be covered.

# Medical Policy: Neuropsychological Testing (Commercial)

**Table 1-Medical Issues**

Brain tumor
Hypoxic ischemic brain injury
Cerebrovascular disease (eg, stroke, vascular dementias)
Central nervous system (CNS) infection (eg, herpes encephalitis, HIV)
Demyelinating disease (eg, multiple sclerosis)
Epilepsy (for patients under consideration for temporal lobectomy, to assess the cognitive integrity of the remaining hemisphere and lateralized representation of specific cognitive capacities)
Extrapyramidal disease (eg, Parkinson’s or Huntington’s diseases)
Head injury (open or closed)
Metabolic encephalopathy (associated with hepatic or renal disease)
Neurodegenerative disorders (eg, AIDS, Alzheimer’s disease and other mixed-type dementias) (See also footnote 3)
Neurocognitive monitoring of recovery from or progression of CNS disorders

**Table 2 – Mental Health Issues**

Chronic exposure to agents known to be associated with cerebral dysfunction (eg, solvents, heavy metal such as lead or illicit drugs) <sup>2</sup>
Assessment of mental functioning for individuals with suspected or known mental disorders, for purposes of differential diagnosis and treatment
Assessment of patient’s strengths and disabilities, for use in treatment planning or management, when signs or symptoms of a mental disorder are present
Assessment of patient’s capacity for decision making when impairment that would affect patient care or management is suspected
Differential diagnosis between psychogenic and neurogenic syndromes (eg, depression versus dementia) <sup>3</sup>

<sup>1</sup>Brief screening measures such as the Folstein Mini-Mental Status Exam or use of other mental status exams in isolation should not be reported separately as psychological or neuropsychological testing, as they are typically part of a more general clinical exam or interview.

<sup>2</sup>The workers’ compensation carrier may provide coverage, particularly in the occupational or environmental medicine realm

<sup>3</sup>When a psychiatric condition or the presence of dementia is previously diagnosed, there is value to the testing only if the information derived would be expected to significantly influence management. Examples include a significant change in the patient’s condition, the need to evaluate a patient’s capacity to function in a given situation or environment, and the need to specifically tailor therapeutic or compensatory techniques to particular aspects of the patient’s pattern of strengths and disabilities.

# Medical Policy: Neuropsychological Testing (Commercial)

## Documentation

The medical record should include all of the following information:

- Diagnosis (or suspected diagnosis that was the basis for the testing if no mental illness was found)
- Identity of person performing service
- Present evaluation
- Reason for referral
- Recommendations for interventions, if necessary
- Tests administered, scoring and interpretation and time involved

## Administration of NPT

Only specific types of providers may perform NPT<sup>4</sup>.

The Plan covers up to 8 hours of NPT; (inclusive of administration, scoring and interpretation) initially. If a provider wants additional hours for testing, they must submit an additional request. All psychological / neuropsychological testing is subject to medical necessity review.

NPT for routine re-evaluation of chronically disabled patients will be covered only if it is required for a diagnosis or continued treatment.

## Limitations/Exclusions

Each test administered must be medically necessary. Standardized batteries of tests are only acceptable if each component test is medically necessary.

- A. When neuropsychological testing for a diagnosis of Autism Spectrum Disorder (ASD) is provided by a licensed physician or psychologist it is the responsibility of Optum. If the testing is provided by a developmental pediatrician or pediatric neurologist, it is covered by the medical plan.
- B. NPT is not covered under any of the following circumstances:
  - No suspicion of mental illness or disability  
This is screening, which is not medically necessary. Non-specific behaviors that do not suggest the possibility of mental illness or disability are not an acceptable indication for testing.
  - Solely for educational or vocational purposes

---

<sup>4</sup>NPT may be conducted by the following provider types. Individuals who are not licensed or otherwise authorized by state law to provide psychological services may not provide psychological services.

- Geriatric Medicine
- Neurology
- Pediatrics (developmental-behavioral and neurodevelopmental specialists)
- Psychiatrist (MD or DO)
- Clinical Psychologist (CP)
- Clinical Social Worker (CSW)
- Psychiatric Nurse Practitioners (NPs)
- Clinical Nurse Specialists (CNS)
- Physician Assistants (PAs)

# Medical Policy: Neuropsychological Testing (Commercial)

- Circumstances that may interfere with the accuracy or interpretation of test results, such as:
  - Positive history of substance abuse when any of the following apply:
    - a. Continued use precludes accurate NPT result
    - b. The patient is ≤ 10 days post-detoxification
  - The effects of certain daily medications (e.g., mood-altering drugs or beta blockers) have not been ruled out
  - Similar testing has been performed in the last 12 months
- C. NPT is not covered for the purposes of diagnosing any of the following conditions, as it is not considered medically necessary:
  - ADD/ADHD  
NPT is rarely required for uncomplicated ADD with or without hyperactivity; however, a referral to an outpatient mental health or chemical dependency clinic may be medically necessary and covered for the evaluation and comprehensive bio-psychosocial treatment for these disorders. NPT may be medically necessary and covered for neurologically complicated cases of ADD/ADHD (eg, post head trauma, seizures)
  - Developmental disability
  - Learning disability
  - Intellectual disability (intellectual development disorder)
  - Tourette's syndrome

## Applicable Procedure Codes

96105	Assessment of aphasia (includes assessment of expressive and receptive speech and language function, language comprehension, speech production ability, reading, spelling, writing, eg, by Boston Diagnostic Aphasia Examination) with interpretation and report, per hour
96116	Neurobehavioral status exam (clinical assessment of thinking, reasoning and judgment, [eg, acquired knowledge, attention, language, memory, planning and problem solving, and visual spatial abilities]), by physician or other qualified health care professional, both face-to-face time with the patient and time interpreting test results and preparing the report; first hour
96121	Neurobehavioral status exam (clinical assessment of thinking, reasoning and judgment, [eg, acquired knowledge, attention, language, memory, planning and problem solving, and visual spatial abilities]), by physician or other qualified health care professional, both face-to-face time with the patient and time interpreting test results and preparing the report; each additional hour (List separately in addition to code for primary procedure)
96130	Psychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s) or caregiver(s), when performed; first hour
96131	Psychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s) or caregiver(s), when performed; each additional hour (List separately in addition to code for primary procedure)
96132	Neuropsychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s)

# Medical Policy: Neuropsychological Testing (Commercial)

	or caregiver(s), when performed; first hour
96133	Neuropsychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s) or caregiver(s), when performed; each additional hour (List separately in addition to code for primary procedure)
96136	Psychological or neuropsychological test administration and scoring by physician or other qualified health care professional, two or more tests, any method; first 30 minutes
96137	Psychological or neuropsychological test administration and scoring by physician or other qualified health care professional, two or more tests, any method; each additional 30 minutes (List separately in addition to code for primary procedure)
96138	Psychological or neuropsychological test administration and scoring by technician, two or more tests, any method; first 30 minutes
96139	Psychological or neuropsychological test administration and scoring by technician, two or more tests, any method; each additional 30 minutes (List separately in addition to code for primary procedure)
96146	Psychological or neuropsychological test administration, with single automated, standardized instrument via electronic platform, with automated result only

## Applicable ICD-10 Codes

Medical Issues	
C70.0	Malignant neoplasm of cerebral meninges
C70.9	Malignant neoplasm of meninges, unspecified
C71.0	Malignant neoplasm of cerebrum, except lobes and ventricles
C71.1	Malignant neoplasm of frontal lobe
C71.2	Malignant neoplasm of temporal lobe
C71.3	Malignant neoplasm of parietal lobe
C71.4	Malignant neoplasm of occipital lobe
C71.5	Malignant neoplasm of cerebral ventricle
C71.6	Malignant neoplasm of cerebellum
C71.7	Malignant neoplasm of brain stem
C71.8	Malignant neoplasm of overlapping sites of brain
C71.9	Malignant neoplasm of brain, unspecified
C72.20	Malignant neoplasm of unspecified olfactory nerve
C72.21	Malignant neoplasm of right olfactory nerve
C72.22	Malignant neoplasm of left olfactory nerve
C72.30	Malignant neoplasm of unspecified optic nerve
C72.31	Malignant neoplasm of right optic nerve
C72.32	Malignant neoplasm of left optic nerve
C72.40	Malignant neoplasm of unspecified acoustic nerve
C72.41	Malignant neoplasm of right acoustic nerve
C72.42	Malignant neoplasm of left acoustic nerve
C72.50	Malignant neoplasm of unspecified cranial nerve
C72.59	Malignant neoplasm of other cranial nerves
C79.31	Secondary malignant neoplasm of brain

# Medical Policy: Neuropsychological Testing (Commercial)

Medical Issues	
D32.0	Benign neoplasm of cerebral meninges
D32.9	Benign neoplasm of meninges, unspecified
D33.0	Benign neoplasm of brain, supratentorial
D33.1	Benign neoplasm of brain, infratentorial
D33.2	Benign neoplasm of brain, unspecified
D33.7	Benign neoplasm of other specified parts of central nervous system
D43.0	Neoplasm of uncertain behavior of brain, supratentorial
D43.1	Neoplasm of uncertain behavior of brain, infratentorial
D43.2	Neoplasm of uncertain behavior of brain, unspecified
D43.4	Neoplasm of uncertain behavior of spinal cord
D49.6	Neoplasm of unspecified behavior of brain
E75.00	GM2 gangliosidosis, unspecified
E75.01	Sandhoff disease
E75.02	Tay-Sachs disease
E75.09	Other GM2 gangliosidosis
E75.10	Unspecified gangliosidosis
E75.11	Mucopolipidosis IV
E75.19	Other gangliosidosis
E75.23	Krabbe disease
E75.25	Metachromatic leukodystrophy
E75.29	Other sphingolipidosis
E75.4	Neuronal ceroid lipofuscinosis
F01.50	Vascular dementia without behavioral disturbance
F01.51	Vascular dementia with behavioral disturbance
F01.51	Vascular dementia with behavioral disturbance
F01.51	Vascular dementia with behavioral disturbance
F02.80	Dementia in other diseases classified elsewhere without behavioral disturbance
F02.81	Dementia in other diseases classified elsewhere with behavioral disturbance
F07.0	Personality change due to known physiological condition
F07.89	Other personality and behavioral disorders due to known physiological condition
F84.2	Rett's syndrome
G05.3	Encephalitis and encephalomyelitis in diseases classified elsewhere
G10	Huntington's disease
G20	Parkinson's disease
G21.11	Neuroleptic induced parkinsonism
G21.19	Other drug induced secondary parkinsonism
G21.2	Secondary parkinsonism due to other external agents
G21.3	Postencephalitic parkinsonism
G21.4	Vascular parkinsonism
G21.8	Other secondary parkinsonism

# Medical Policy: Neuropsychological Testing (Commercial)

Medical Issues	
G21.9	Secondary parkinsonism, unspecified
G25.9	Extrapyramidal and movement disorder, unspecified
G31.81	Alpers disease
G31.82	Leigh's disease
G31.83	Dementia with Lewy bodies
G31.9	Degenerative disease of nervous system, unspecified
G35	Multiple sclerosis
G36.1	Acute and subacute hemorrhagic leukoencephalitis [Hurst]
G36.8	Other specified acute disseminated demyelination
G36.9	Acute disseminated demyelination, unspecified
G37.1	Central demyelination of corpus callosum
G37.2	Central pontine myelinolysis
G37.4	Subacute necrotizing myelitis of central nervous system
G37.8	Other specified demyelinating diseases of central nervous system
G37.9	Demyelinating disease of central nervous system, unspecified
G40.001	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, not intractable, with status epilepticus
G40.009	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, not intractable, without status epilepticus
G40.011	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, intractable, with status epilepticus
G40.019	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, intractable, without status epilepticus
G40.101	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, not intractable, with status epilepticus
G40.109	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, not intractable, without status epilepticus
G40.111	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, intractable, with status epilepticus
G40.119	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, intractable, without status epilepticus
G40.201	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, not intractable, with status epilepticus
G40.209	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, not intractable, without status epilepticus
G40.211	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, intractable, with status epilepticus
G40.219	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, intractable, without status epilepticus
G40.309	Generalized idiopathic epilepsy and epileptic syndromes, not intractable, without status epilepticus

## Revision history

DATE	REVISION
02/11/2022	Clinical terminology updates, no substantive change
02/12/2021	Added to Guideline Statement that NPT is considered medically necessary for either clarifying a diagnosis or guiding treatment
02/01/2021	Updated coding list
10/09/2020	Added Geriatric Medicine and Neurology specialties as allowable provider types for performing NPT services
12/16/2019	Reformatted and reorganized policy, transferred content to new template Removed language specific to Emblem Health and NY state
05/12/2017	The value of 10 units of testing has been changed from 10 to 8 in accordance with medical unlikely edits (MUE) Clarified that preauthorization is required for both the initial 8 hours of testing as well as any additional hours
10/25/2015	Clarified use of CPT coding regarding 96118, 96119 and 96120
