

Reimbursement Policy:

COVID-19 Vaccine and Monoclonal Antibody Infusions Policy

POLICY NUMBER	EFFECTIVE DATE:	APPROVED BY
RPC20220019	11/09/2020	RPC (Reimbursement Policy Committee)

Reimbursement Guideline Disclaimer: We have policies in place that reflect billing or claims payment processes unique to our health plans. Current billing and claims payment policies apply to all our products, unless otherwise noted. We will inform you of new policies or changes in policies through postings to the applicable Reimbursement Policies webpages on emblemhealth.com and connecticare.com. Further, we may announce additions and changes in our provider manual and/or provider newsletters which are available online and emailed to those with a current and accurate email address on file. The information presented in this policy is accurate and current as of the date of this publication.

The information provided in our policies is intended to serve only as a general reference resource for services described and is not intended to address every aspect of a reimbursement situation. Other factors affecting reimbursement may supplement, modify or, in some cases, supersede this policy. These factors may include, but are not limited to, legislative mandates, physician or other provider contracts, the member’s benefit coverage documents and/or other reimbursement, and medical or drug policies. Finally, this policy may not be implemented the same way on the different electronic claims processing systems in use due to programming or other constraints; however, we strive to minimize these variations.

We follow coding edits that are based on industry sources, including, but not limited to, CPT® guidelines from the American Medical Association, specialty organizations, and CMS including NCCI and MUE. In coding scenarios where there appears to be conflicts between sources, we will apply the edits we determine are appropriate. We use industry-standard claims editing software products when making decisions about appropriate claim editing practices. Upon request, we will provide an explanation of how we handle specific coding issues. If appropriate coding/billing guidelines or current reimbursement policies are not followed, we may deny the claim and/or recoup claim payment.

Overview:

The cost of COVID-19 FDA-authorized vaccine serums and monoclonal antibodies will initially be reimbursed by the government.

EmblemHealth/ConnectiCare will reimburse administration of FDA-authorized COVID-19 vaccines in accordance with applicable state federal laws, regulations and guidance, including the FFCRA, CARES Act and Emergency Use Authorization (EUA) guidance, as outlined below.

Medicare Advantage health plans: Charges for the COVID-19 vaccine administration should be billed to the CMS Medicare Administrative Contractor (Part B). The MAC will reimburse claims for Medicare members with no cost share for the remainder of 2020 and through 2021. Any claims for COVID-19 vaccines or administration charges for COVID-19 vaccines received for Medicare Advantage members will be denied and will inform the provider to resubmit to the member’s MAC. For more information, see the [CMS COVID-19 Provider Toolkit](#).

Commercial/Exchange health plans: EmblemHealth/ConnectiCare will cover the administration of COVID-19 vaccines with no cost share for in- and out-of-network providers during the national public health emergency period. Administration fees will be based on contracted rates or CMS published rates. *NY state-specific rules may also apply.*

Medicaid: EmblemHealth will cover the administration of COVID-19 vaccines with no cost share for in- and out-of-network providers during the national public health emergency period. Administration fees will be based on CMS published rates. *NY state-specific rules and other state Medicaid regulations may apply.*

COVID-19 Vaccine and Monoclonal Antibody Infusions Policy

Applicable Coding:

CPT Code	Description
M0201	COVID-19 vaccine home admin. <i>Effective 6/08/2021</i>
M0220	Injection, tixagevimab and cilgavimab, for the pre-exposure prophylaxis only, for certain adults and pediatric individuals (12 years of age and older weighing at least 40kg) with no known sars-cov-2 exposure, who either have moderate to severely compromised immune systems or for whom vaccination with any available covid-19 vaccine is not recommended due to a history of severe adverse reaction to a covid-19 vaccine(s) and/or covid-19 vaccine component(s), includes injection and post administration monitoring (<i>Effective 12/08/2021</i>)
M0221	Injection, tixagevimab and cilgavimab, for the pre-exposure prophylaxis only, for certain adults and pediatric individuals (12 years of age and older weighing at least 40kg) with no known sars-cov-2 exposure, who either have moderate to severely compromised immune systems or for whom vaccination with any available covid-19 vaccine is not recommended due to a history of severe adverse reaction to a covid-19 vaccine(s) and/or covid-19 vaccine component(s), includes injection and post administration monitoring in the home or residence; this includes a beneficiary's home that has been made provider-based to the hospital during the covid-19 public health emergency (<i>Effective 12/08/2021</i>)
M0222	Intravenous injection, bebtelovimab, includes injection and post administration monitoring (<i>Effective 2/11/2022-11/30/2022</i>). Note: This product isn't currently authorized.
M0223	Intravenous injection, bebtelovimab, includes injection and post administration monitoring in the home or residence; this includes a beneficiary's home that has been made provider-based to the hospital during the covid-19 public health emergency (<i>Effective 2/11/2022-11/30/2022</i>). Note: This product isn't currently authorized.
M0240	Intravenous infusion or subcutaneous injection, casirivimab and imdevimab includes infusion or injection, and post administration monitoring, subsequent repeat doses (<i>Effective 7/30/2021-1/24/2022</i>). Note: This product isn't currently authorized.
M0241	Intravenous infusion or subcutaneous injection, casirivimab and imdevimab, includes infusion or injection, and post administration monitoring in the home or residence. This includes a beneficiary's home that has been made provider-based to the hospital during the covid-19 public health emergency, subsequent repeat doses (<i>Effective 7/30/2021-1/24/2022</i>). Note: This product isn't currently authorized.
M0243	intravenous infusion, casirivimab and imdevimab includes infusion and post administration monitoring (<i>Effective 7/30/2021-1/24/2022</i>). Note: This product isn't currently authorized.

Reimbursement Policy:

COVID-19 Vaccine and Monoclonal Antibody Infusions Policy

CPT Code	Description
M0244	Intravenous infusion, casirivimab and imdevimab includes infusion and post administration monitoring in the home or residence; this includes a beneficiary's home that has been made provider-based to the hospital during the COVID-19 public health emergency. (Effective 05/06/2021-1/24/2022). Note: This product isn't currently authorized.
M0245	intravenous infusion, bamlanivimab and etesevimab, includes infusion and post administration monitoring Effective 2/9/2021-1/24/2022). Note: This product isn't currently authorized.
M0246	Intravenous infusion, bamlanivimab and etesevimab, includes infusion and post administration monitoring in the home or residence; this includes a beneficiary's home that has been made provider-based to the hospital during the covid-19 public health emergency. Effective 5/06/2021-1/24/2022). Note: This product isn't currently authorized.
M0247	Intravenous infusion, sotrovimab, includes infusion and post administration monitoring. Effective 5/26/2021-4/5/2022). Note: This product isn't currently authorized.
M0248	Intravenous infusion, sotrovimab, includes infusion and post administration monitoring in the home or residence; this includes a beneficiary's home that has been made provider-based to the hospital during the covid-19 public health emergency. Effective 5/06/2021-4/5/2022). Note: This product isn't currently authorized.
M0249	Intravenous infusion, tocilizumab, for hospitalized adults and pediatric patients (2 years of age and older) with covid-19 who are receiving systemic corticosteroids and require supplemental oxygen, non-invasive or invasive mechanical ventilation, or extracorporeal membrane oxygenation (ECMO) only, includes infusion and post administration monitoring, first dose. Effective 6/24/2021
M0250	Intravenous infusion, tocilizumab, for hospitalized adults and pediatric patients (2 years of age and older) with covid-19 who are receiving systemic corticosteroids and require supplemental oxygen, non-invasive or invasive mechanical ventilation, or extracorporeal membrane oxygenation (ECMO) only, includes infusion and post administration monitoring, second dose. Effective 6/24/2021
Q0220	Injection, tixagevimab and cilgavimab, for the pre-exposure prophylaxis only, for certain adults and pediatric individuals (12 years of age and older weighing at least 40kg) with no known sars-cov-2 exposure, who either have moderate to severely compromised immune systems or for whom vaccination with any available covid-19 vaccine is not recommended due to a history of severe adverse reaction to a covid-19 vaccine(s) and/or covid-19 vaccine component(s), 300 mg (Effective 12/08/2021)
Q0221	Injection, tixagevimab and cilgavimab, for the pre-exposure prophylaxis only, for certain adults and pediatric individuals (12 years of age and older weighing at least 40kg) with no known sars-cov-2 exposure, who either have moderate to severely compromised immune systems or for whom vaccination with any available covid-19 vaccine is not recommended due to a history of severe

	adverse reaction to a covid-19 vaccine(s) and/or covid-19 vaccine component(s), 600 mg <i>(Effective 2/24/2022)</i>
Q0222	Injection, bebtelovimab, 175 mg <i>(Effective 2/11/2022-11/30/22)</i> Note: This product isn't currently authorized.
Q0239	Injection, bamlanivimab-xxxx, 700 mg <i>Effective 11/10/2020</i>
Q0240	Injection, casirivimab and imdevimab, 600 mg <i>((Effective 7/30/2021-1/24/2022)</i> Note: This product isn't currently authorized.
Q0243	Injection, casirivimab and imdevimab, 2400 mg <i>Effective 11/21/2020-1/24/2022).</i> Note: This product isn't currently authorized.
Q0244	Injection, casirivimab and imdevimab, 1200 mg <i>Effective 6/3/2021-1/24/2022).</i> Note: This product isn't currently authorized.
Q0245	Injection, bamlanivimab and etesevimab, 2100 mg <i>Effective 2/9/2021-1/24/2022).</i> Note: This product isn't currently authorized.
Q0247	Injection, sotrovimab, 500 mg <i>Effective 5/26/2021-4/5/2022).</i> Note: This product isn't currently authorized.
Q0249	Injection, tocilizumab, for hospitalized adults and pediatric patients (2 years of age and older) with covid-19 who are receiving systemic corticosteroids and require supplemental oxygen, non-invasive or invasive mechanical ventilation, or extracorporeal membrane oxygenation (ECMO) only, 1 mg. <i>Effective 6/24/2021</i>
0001A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3mL dosage, diluent reconstituted; first dose <i>(Pfizer Administration – first dose)</i>
0002A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3mL dosage, diluent reconstituted; second dose <i>(Pfizer Administration – second dose)</i>
0003A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3 mL dosage, diluent reconstituted; third dose <i>(Pfizer Administration-Third Dose) Effective 8/12/2021</i>
0011A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 100 mcg/0.5mL dosage; first dose <i>(Moderna Administration - first dose)</i>

Reimbursement Policy:

COVID-19 Vaccine and Monoclonal Antibody Infusions Policy

CPT Code	Description
0012A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 100 mcg/0.5mL dosage; second dose (<i>Moderna Administration– second dose</i>)
0013A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 100 mcg/0.5mL dosage; third dose (<i>Moderna Administration– Third Dose Effective 8/12/2021</i>)
0031A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccine, DNA, spike protein, adenovirus type 26 (Ad26) vector, preservative free, 5x10 ¹⁰ viral particles/0.5mL dosage, single dose (<i>Janssen Administration– first dose</i>)
0041A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccine, recombinant spike protein nanoparticle, saponin-based adjuvant, preservative free, 5 mcg/0.5mL dosage; first dose (<i>Novavax Administration-first dose</i>) Effective 7/13/2022
0042A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccine, recombinant spike protein nanoparticle, saponin-based adjuvant, preservative free, 5 mcg/0.5mL dosage; second dose (<i>Novavax Administration-second dose</i>) Effective 7/13/2022
0044A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccine, recombinant spike protein nanoparticle, saponin-based adjuvant, preservative free, 5 mcg/0.5mL dosage; booster dose. <i>Novavax Covid-19 Vaccine, Adjuvanted Administration– Booster. Effective 10/19/2022</i>
0051A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3 mL dosage, tris-sucrose formulation; first dose (<i>Pfizer-BioNTech Covid-19 Vaccine Pre-Diluted (Gray Cap) Administration - First dose</i>) Effective 1/03/2022
0052A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3 mL dosage, tris-sucrose formulation; second dose (<i>Pfizer-BioNTech Covid-19 Vaccine Pre-Diluted (Gray Cap) Administration - Second dose</i>) Effective 1/03/2022
0053A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3 mL dosage, tris-sucrose formulation; third dose (<i>Pfizer-BioNTech Covid-19</i>)
