**I. PURPOSE**

To define and describe the accepted indications for Zolinza (vorinostat) usage in the treatment of cancer, including FDA approved indications, and off-label indications.

New Century is responsible for processing all medication requests from network ordering providers. Medications not authorized by New Century may be deemed as not approvable and therefore not reimbursable.

The use of this drug must be supported by one of the following: FDA approved product labeling, CMS-approved compendia, National Comprehensive Cancer Network (NCCN), American Society of Clinical Oncology (ASCO) clinical guidelines, or peer-reviewed literature that meets the requirements of the CMS Medicare Benefit Policy Manual Chapter 15.

**II. INDICATIONS FOR USE/INCLUSION CRITERIA**

**1. PREFERRED MEDICATION GUIDANCE FOR INITIAL REQUEST:**

- a. When health plan Medicaid coverage provisions- including any applicable PDLs ( Preferred Drug Lists)- conflict with the coverage provisions in this drug policy, health plan Medicaid coverage provisions take precedence per the **Preferred Drug Guidelines OR**
- b. When health plan Exchange coverage provisions- including any applicable PDLs ( Preferred Drug Lists)- conflict with the coverage provisions in this drug policy, health plan Exchange coverage provisions take precedence per the **Preferred Drug Guidelines OR**
- c. For Health Plans that utilize NCH UM Oncology Clinical Policies as the initial clinical criteria, the **Preferred Drug Guidelines shall follow NCH L1 Pathways** when applicable, otherwise shall follow NCH drug policies: <http://pathways.newcenturyhealth.com> **AND**
- d. Continuation requests of previously approved non-preferred medication are not subject to this provision **AND**
- e. When available, generic drug alternatives are preferred over Brand name drugs.

**2. Cutaneous T-Cell Lymphoma (CTCL)**

- a. The member has relapsed/refractory CTCL (mycosis fungoides or Sezary syndrome) **AND**
- b. Zolinza (vorinostat) is being used as a single agent **AND**
- c. The member has documented failure, contraindications, or intolerance to at least TWO of the following systemic therapies cytotoxic chemotherapy and interferons **AND**

- d. Failure of at least one prior skin directed therapy including phototherapy, photopheresis, topical nitrogen mustard or carmustine (BCNU).

### III. EXCLUSION CRITERIA

1. Member has disease progression while taking Zolinza (vorinostat) or another histone deacetylase inhibitor (i.e. romidepsin).
2. Member with severe hepatic impairment: bilirubin more than 3 times ULN.
3. Dosing exceeds single dose limit of Zolinza (vorinostat) 400 mg.
4. Treatment with Zolinza (vorinostat) exceeds the maximum duration limit of 120 (100 mg) capsules a month.
5. Indications not supported by CMS recognized compendia or acceptable peer reviewed literature.

### IV. MEDICATION MANAGEMENT

Please refer to the FDA label/package insert for details regarding these topics.

### V. APPROVAL AUTHORITY

1. Review – UM Department
2. Final Approval – UM Committee
