ConnectiCare Pharmacy Medical Preauthorization List

cReimbursement Guideline Disclaimer: ConnectiCare has policies in place that reflect billing or claims payment processes unique to our health plans. Current billing and claims payment policies apply to all our products, unless otherwise noted. ConnectiCare will inform you of new policies or changes in policies through updates to the Provider Manual and/or provider news. The information presented in this policy is accurate and current as of the date of this publication.

The information provided in ConnectiCare's policies is intended to serve only as a general reference resource for services described and is not intended to address every aspect of a reimbursement situation. Other factors affecting reimbursement may supplement, modify or, in some cases, supersede this policy. These factors may include, but are not limited to: legislative mandates, physician or other provider contracts, the member's benefit coverage documents and/or other reimbursement, medical or drug policies. Finally, this policy may not be implemented exactly the same way on the different electronic claims processing systems used by ConnectiCare due to programming or other constraints; however, ConnectiCare strives to minimize these variations.

ConnectiCare follows coding edits that are based on industry sources, including, but not limited to; CPT® guidelines from the American Medical Association, specialty organizations, and CMS including NCCI and MUE. In coding scenarios where there appears to be conflicts between sources, we will apply the edits we determine are appropriate. ConnectiCare uses industry-standard claims editing software products when making decisions about appropriate claim editing practices. Upon request, we will provide an explanation of how ConnectiCare handles specific coding issues. If appropriate coding/billing guidelines or current reimbursement policies are not followed, ConnectiCare may deny the claim and/or recoup claim payment.

Effective: 01/01/2025

This is cumulative document updated with changes as needed. Updates to this list will be communicated through provider newsletters and are detailed in Revision History.

Policy Statement: This policy is applicable to ConnectiCare Commercial, ConnectiCare Exchange and ConnectiCare Medicare Advantage plans.
