

Reimbursement Policy: Bundled Services (Commercial and Medicare)

Policy criteria are **not applicable** to Exchange and Medicare Advantage Plans for dates of service on or after January 1, 2026.

POLICY NUMBER	EFFECTIVE DATE:	APPROVED BY
RPC20220031	1/01/2018	RPC (Reimbursement Policy Committee)

Reimbursement Guideline Disclaimer: We have policies in place that reflect billing or claims payment processes unique to our health plans. Current billing and claims payment policies apply to all our products, unless otherwise noted. We will inform you of new policies or changes in policies through postings to the Reimbursement Policies webpage on connecticare.com. Further, we may announce additions and changes in our provider manual and/or provider newsletters which are available online and emailed to those with a current and accurate email address on file. The information presented in this policy is accurate and current as of the date of this publication.

The information provided in our policies is intended to serve only as a general reference resource for services described and is not intended to address every aspect of a reimbursement situation. Other factors affecting reimbursement may supplement, modify or, in some cases, supersede this policy. These factors may include, but are not limited to, legislative mandates, physician or other provider contracts, the member's benefit coverage documents and/or other reimbursement, and medical or drug policies. Finally, this policy may not be implemented the same way on the different electronic claims processing systems in use due to programming or other constraints; however, we strive to minimize these variations.

We follow coding edits that are based on industry sources, including, but not limited to, CPT® guidelines from the American Medical Association, specialty organizations, and CMS including NCCI and MUE. In coding scenarios where there appears to be conflicts between sources, we will apply the edits we determine are appropriate. We use industry-standard claims editing software products when making decisions about appropriate claim editing practices. Upon request, we will provide an explanation of how we handle specific coding issues. If appropriate coding/billing guidelines or current reimbursement policies are not followed, we may deny the claim and/or recoup claim payment.

Overview:

The purpose of this policy is to define payment criteria for covered services designated by CMS as always bundled to another physician's procedure or service to be used in making payment decisions and administering benefits. The Centers for Medicare and Medicaid Services (CMS) classifies certain procedure codes as always bundled when billed on the same claim or a historical claim containing another procedure code or codes to which the bundled code shares an incidental relationship.

Policy Statement:

This policy applies to Physician and Non-physician Practitioner Services when billed on CMS-1500 Professional Claims. This policy does not apply to Ambulance, DME, Home Infusion, and Home Care providers.

Revision History

Reimbursement Guidelines:

The Center for Medicare and Medicaid Services (CMS) maintains the National Physician Fee Schedule (NPFS) which contains CPT and HCPCS procedure codes. Each of these codes has a Status Indicator code. The status code indicates whether the code is separately payable if the service is covered.

ConnectiCare has aligned with CMS and considers certain services and supplies to be ineligible for separate reimbursement when reported by a professional provider. These services and/or supplies may be reported with a primary service or as a stand-alone service.

Reimbursement Policy: Bundled Services (Commercial and Medicare)

Policy criteria are **not applicable** to Exchange and Medicare Advantage Plans for dates of service on or after January 1, 2026.

This policy applies to those CPT/HCPCS codes with following CMS Status Indicators:

CMS Status Indicator	Description
Status "A"	Active Code: These codes are paid separately under the physician fee schedule, if covered. There will be RVUs for codes with this status. The presence of an "A" indicator does not mean that Medicare has made a national coverage determination regarding the service; carriers remain responsible for coverage decisions in the absence of a national Medicare policy.
Status "B"	Bundled Code: "Payment for covered services are always bundled into payment for other services not specified. If RVUs are shown, they are not used for Medicare payment. If these services are covered, payment for them is subsumed by the payment for the services to which they are incident. (An example is a telephone call from a hospital nurse regarding care of a patient)."
Status "E"	Excluded from physician fee schedule by regulation. CMS excludes these codes for items or services from the fee schedule payment by regulation. The PFSDB Status Indicators table doesn't show any RVUs or payment amounts and makes no payment under the fee schedule for these codes.
Status "P"	Bundled/Excluded Codes: There are no RVUs and no payment amounts for these services. No separate payment should be made for them under the fee schedule. • If the item or service is covered as incident to a physician service and is provided on the same day as a physician service, payment for it is bundled into the payment for the physician service to which it is incident (an example is an elastic bandage furnished by a physician incident to a physician service). • If the item or service is covered as other than incident to a physician service, it is excluded from the fee schedule (for example, colostomy supplies) and would be paid under the other payment provisions of the act.
Status "R"	Restricted Coverage. Special coverage instructions apply. If covered, the service is carrier priced. (NOTE: The majority of codes to which this indicator will be assigned are the alpha-numeric dental codes, which begin with "D". We are assigning the indicator to a limited number of CPT codes which represent services that are covered only in unusual circumstances.)
Status "T"	There are RVUS and payment amounts for these services, but they are only paid if there are no other services payable under the physician fee schedule billed on the same date by the same provider. If any other services payable under the physician fee schedule are billed on the same date by the same provider, these services are bundled into the physician services for which payment is made. (NOTE: This is a change from the previous definition, which states that injection services are bundled into any other services billed on the same date.)
Status "X"	Statutory exclusion. These codes stand for an item or service that isn't in the legal definition of physician services for fee schedule payment purposes. The PFSDB Status Indicators table shows no RVUs or payment amounts for these codes and makes no payment under the PFS.

Reimbursement Policy: Bundled Services (Commercial and Medicare)

Policy criteria are not applicable to Exchange and Medicare Advantage Plans for dates of service on or after January 1, 2026.

Definitions:

Term	Description
Incidental Procedure	An incidental procedure is one that is carried out at the same time as a more complex primary procedure. These procedures require minimal additional provider resources and are considered not necessary to the performance of the primary procedure.

Status B (Bundled Codes)

ConnectiCare has aligned with CMS and will not separately reimburse for certain CPT/HCPCS codes identified by the Centers for Medicare and Medicaid Services (CMS) National Physician Fee Schedule (NPFS) Relative Value File with a designated status of "B" indicating a bundled procedure. **Modifiers will not override the denial for the always bundled services and/or supplies.**

*The table below is based upon the most current published list or update of **Status B** designations from CMS in the NPFS. The following codes are included below for informational purposes only and are subject to change without notice. Inclusion or exclusion of a code does not constitute or imply coverage or provider reimbursement.*

Reimbursement Policy: Bundled Services (Commercial and Medicare)

Policy criteria are **not applicable** to Exchange and Medicare Advantage Plans for dates of service on or after January 1, 2026.

Status P (Bundled/Excluded Codes):

ConnectiCare has aligned with CMS and will not separately reimburse for certain CPT/HCPCS codes identified by the Centers for Medicare and Medicare Services (CMS) National Physician Fee Schedule (NPFS) Relative Value File with a designated status of "P". *Status "P" procedures are primarily categorized as supply codes.*

If the procedure code is listed with a status indicator of "P," then payment for the procedure code is always included in the payment for other physician's services to which they are incidental and which are not designated as a status "P" procedure or service.

Reimbursement:

1. ConnectiCare code editing software will evaluate the current claim and historical claim lines that are billed with procedure codes designated as status "P" and compare to other procedures billed on the claims.
2. This rule reviews claims for same member, same individual physician or other health care professional and same date of service.
3. If another procedure(s) is found that is not indicated as a status "P" code, the service line with the status "P" code is denied.
4. Payment for the status "P" code is considered subsumed by the payment for the other services without the status "P" designation.
5. Procedure codes designated as status "P" will always pay when billed alone.
6. Procedure codes designated as status "P" will always pay when billed with another procedure code that also bears the status "P" designation.

*The table below is based upon the most current published list or update of **Status P** designations from CMS in the NPFS. The following codes are included below for informational purposes only and are subject to change without notice. Inclusion or exclusion of a code does not constitute or imply coverage or provider reimbursement.*

Status T (Bundled/Excluded Codes:)

ConnectiCare has aligned with CMS and considers CPT® and HCPCS codes assigned a status indicator of T according to the CMS NPFS bundled into services assigned a status indicator of A or R provided on the same date of service by the Same Individual Physician or Other Health Care Professional, for which payment is made. **Modifier overrides will not prevent codes with a status indicator of T from bundling into other services.**

In some instances, a code assigned a status indicator of T is considered payable when reported alone or in the case of two codes assigned a status indicator of T being billed together with no additional service, on the same date of service by the Same Individual Physician or Other Health Care Professional. ConnectiCare will bundle the code with the lower relative value unit (RVU) into the code with the higher RVU.

*The table below is based upon the most current published list or update of **Status T** designations from CMS in the NPFS. The following codes are included below for informational purposes only and are subject to change without notice. Inclusion or exclusion of a code does not constitute or imply coverage or provider reimbursement.*

Status "T" CPT/HCPCS Codes (Commercial and Medicare)							
36591	36592	36598	94760	94761	96523	G0117	G0118

Anesthetic Drugs – Bundled Drugs

ConnectiCare has aligned with CMS and considers the HCPCS codes below as bundled and will not allow separate payment for these drugs when a medical or surgical procedure is performed.

Anesthetic "Caine" Drugs (Commercial and Medicare)						
J0665	J0670	J2002	J2003	J2004	J2402	

Reimbursement Policy: Bundled Services (Commercial and Medicare)

Policy criteria are **not applicable** to Exchange and Medicare Advantage Plans for dates of service on or after January 1, 2026.
