

ConnectiCare[®] Dental Plans

ConnectiCare Dental Benefits - more than just
a nice smile for your employees

Annual maximum look back program

This program allows your employees to access additional benefit dollars so they maximize their dental plan benefits.

Here's how it works:

If your employees use less than 50% of their available annual maximum in a specific benefit year, they will be able to access up to \$250 of that remaining benefit if they reach the annual maximum in the following benefit year. That means up to an additional \$250 that can be applied to their annual maximum creating more benefit flexibility and that maximizes their benefit dollars. Some preventive services must be used in the prior year in order to be eligible for the additional \$250 benefit rollover the following year.

For example:

Members who use up to 50% of their available annual maximum in 2012 will be able to access as much as \$250 of the remaining dollars if they reach their annual maximum in 2013. Some preventive services must be accessed in 2012 to be eligible for the benefit rollover in 2013.
